*Царица - математика опять
 Вас собрала на праздник знаний
 И приглашает всех блистать
 Умом, смекалкой, юмором дерзаний.
 Нет скучных формул, теорем,
 Сегодня – не урок, а праздник!
 И пусть не все получится, как ты хотел,
 Тебе откроется дорога к знаниям.*

Что такое КВН?
 - Это школа юмора
Что такое КВН?
 Чтоб Вы больше думали
 - Это юмор, это смех, это ловкость и успех

Ох, уж эта математика

Есть о математике молва,
 Что она в порядок ум приводит,

- Потому хорошие слова
- Часто говорят о ней в народе.
- Ты нам математика даешь
- Для победы трудностей закалку
- Учимся с тобою каждый день
- Развивать и волю, и смекалку.

ТВОЙ ЗВЕЗДНЫЙ ЧАС

- Порой задача не решается,
- Но это, в общем, не беда.
- Ведь солнце все же улыбается,
- Не унывая никогда.
- Друзья тебе всегда помогут,
- Они с тобой, ты не один.
- Поверь в себя – и ты все сможешь.
- Иди вперед, чтоб победить.

Отборочный тур

Ответы начинаются с выделенных букв

А. Как называют ось ОХ?

В. Конька – Горбунка измерили только этой мерой длины.

Г. Раздел математики.

Д. Она бывает столбчатая и круговая.

З. Переменная, значение которой зависит от другой переменной.

И. Угольник, линейка, циркуль, транспортир – всё это называют.

К. Плоскость, на которой отмечают точки, строят графики.

М. Прибор, который используют для быстрого вычисления.

Н. На него делить нельзя.

О. Как называется ось ОУ?

П. Эта линия является графиком линейной функции.

Р. Отрезок, соединяющий центр с любой точкой этой окружности.

С. Запись, составленная из двух уравнений с двумя переменными.

Т. Фигура, состоящая из 3-х вершин, сторон и углов.

У. Как называется то, что дано в теореме?

Ф. Зависимость одной переменной от другой.

Ц. Точка, равноудалённая от всех точек окружности.

Ч. Бывают чётные и нечётные.

$$\frac{a}{A} = \frac{b}{\sin B} = \frac{c}{\sin C}$$

$$\frac{a}{c} + \frac{b}{c} = \frac{a+b}{c}$$

$$\sin 90^\circ = 1$$

$$\begin{cases} y = \sin 90 \\ x = 25y + 45 \end{cases}$$

$$\begin{cases} y = 1 \\ x = 25 + 45 \end{cases}$$

$$(x+y)(x-y) = x^2 - y^2$$

$$x = 70$$

Вопрос 6 Жил в Сиракузах мудрец

Был он другом царя Гиерона

Какой для царя самый важный предмет?

Вы догадались: корона.

Захотелось Гиерону сделать новую корону.

Золота отмерил строго,

Взял не мало, и не много,-

Сколько нужно в самый раз,

Ювелиру дал заказ.

Через месяц Гиерону ювелир принес корону,
И царю узнать охота: честно ль сделана работа?

- Вот корона, мой мудрец,

Золотая или нет?

И задумался ученый:

Как узнать состав короны?

И однажды, в ванне моясь,

Погрузился он по пояс.

На пол вылилась вода:

догадался он тогда.

И помчался к Гиерону не обут и не одет...

- Эврика! Раскрыл секрет.

Сколько пришлось заплатить каждому? 1. "Мужик" заплатил: $S = 100\ 000\ 30 = 3\ 000\ 000$ рублей.

2. Женщина заплатила: $S = 21\ 000\ 30 = 21\ 000\ 000$ рублей.

3. Мужик заплатил: $S = 10\ 738\ 418$ рублей.
