Australian Etiquette

Australia is a very faraway country. Its culture is a mixture of different European countries and the native aborigines culture. It's unique, so newcomers should know its specific features.

Australian Etiquette

- If you are new to Australia you may find the laid back style (сдержанный стиль) of the Aussies, as they call themselves, a bit strange.
- Here are a few things to keep in mind of Australian traditions:

Australian Etiquette

Australians will usually introduce themselves by their first names - **no formalities** of Mr Brown - just John!

I'm Jack!

Hi, I'm John!

Australian Etiquette

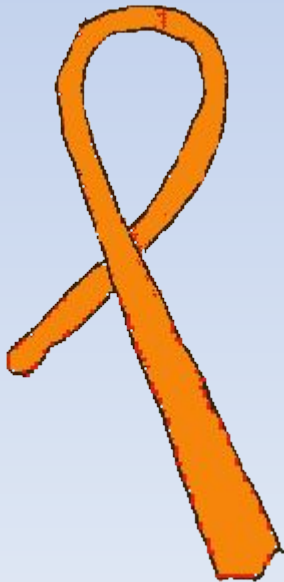

But **don't be personal** when you talk to them. Besides the Aussies like their **personal space** - don't get too close.

Australian Etiquette

Dress code is usually relaxed. **Ties** are rarely worn at work although in some industries like **banking**, it is still a common sight. Things on the weekend with **a T-shirt** and **shorts** are the go!

Australian Etiquette

Queuing - a hang up from the British tradition- It's **polite to stand in line** and **NOT** push in when waiting for a bus, in the bank, at the front of a pub etc. You are likely to get a few **rough words** if you don't!

Australian Etiquette
