LYCEUM № 4

YURI GAGARIN

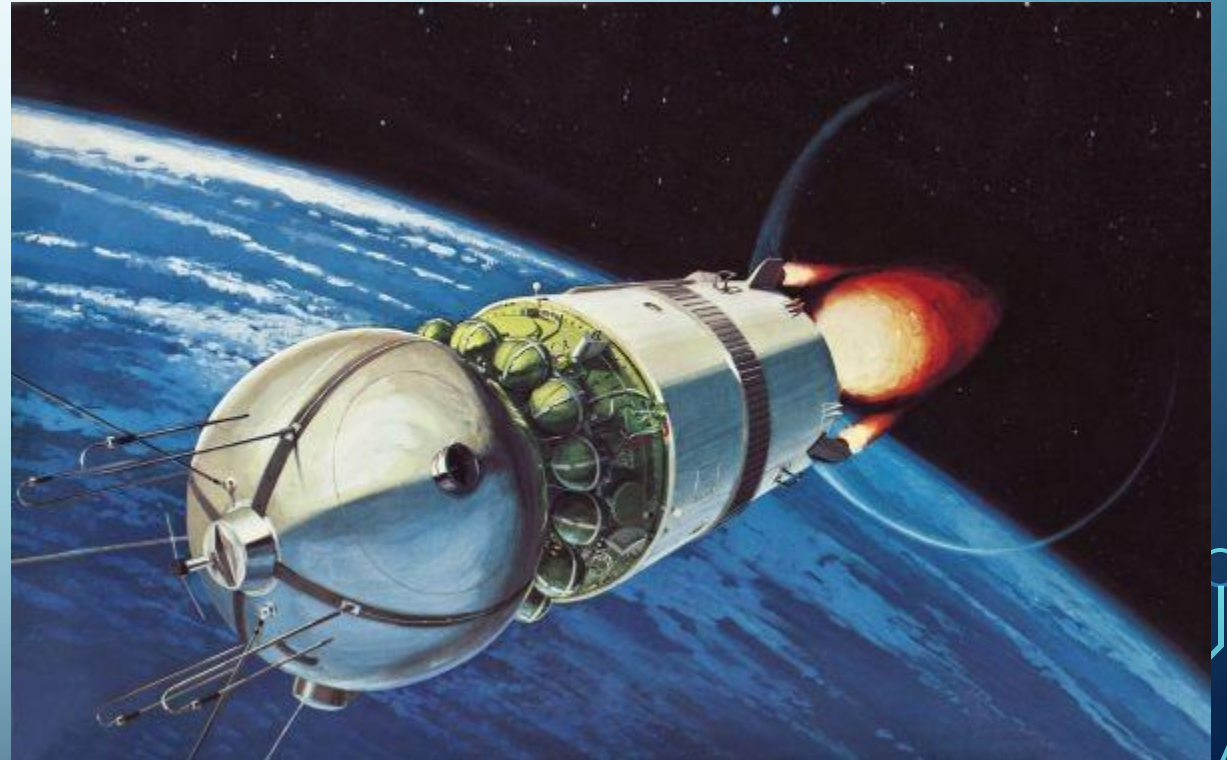

I admire Yuri Gagarin the first cosmonaut in the world.

- Yuri Gagarin lived in the 20th century. In 1955 he entered a school for pilots. Then he became a pilot and joined the first group of cosmonauts.

On April 12 , 1961 Yuri Gagarin flew into space and spent 109 minutes there.

We commemorate Yuri Gagarin because he is a hero of this country.

After his flight he visited many countries. Gagarin perished during one of the training flights.

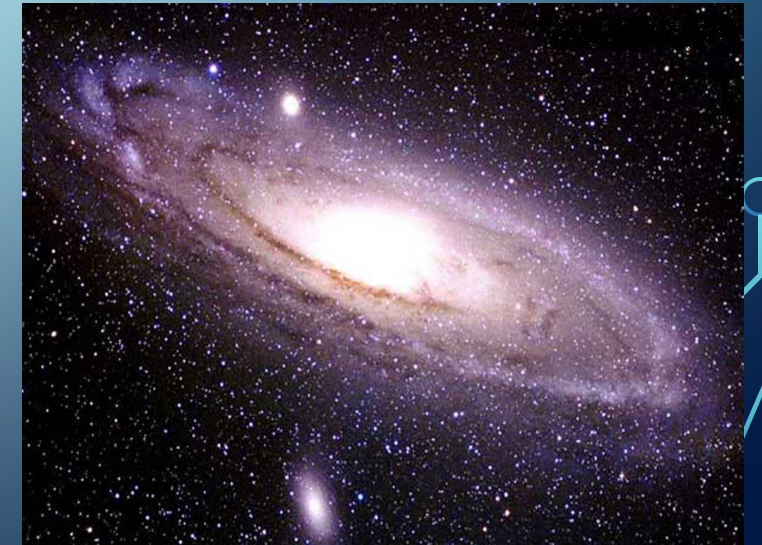

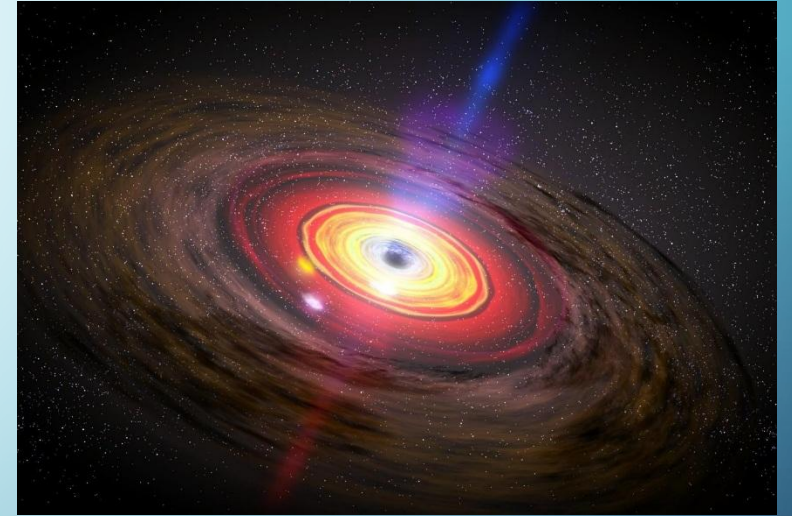

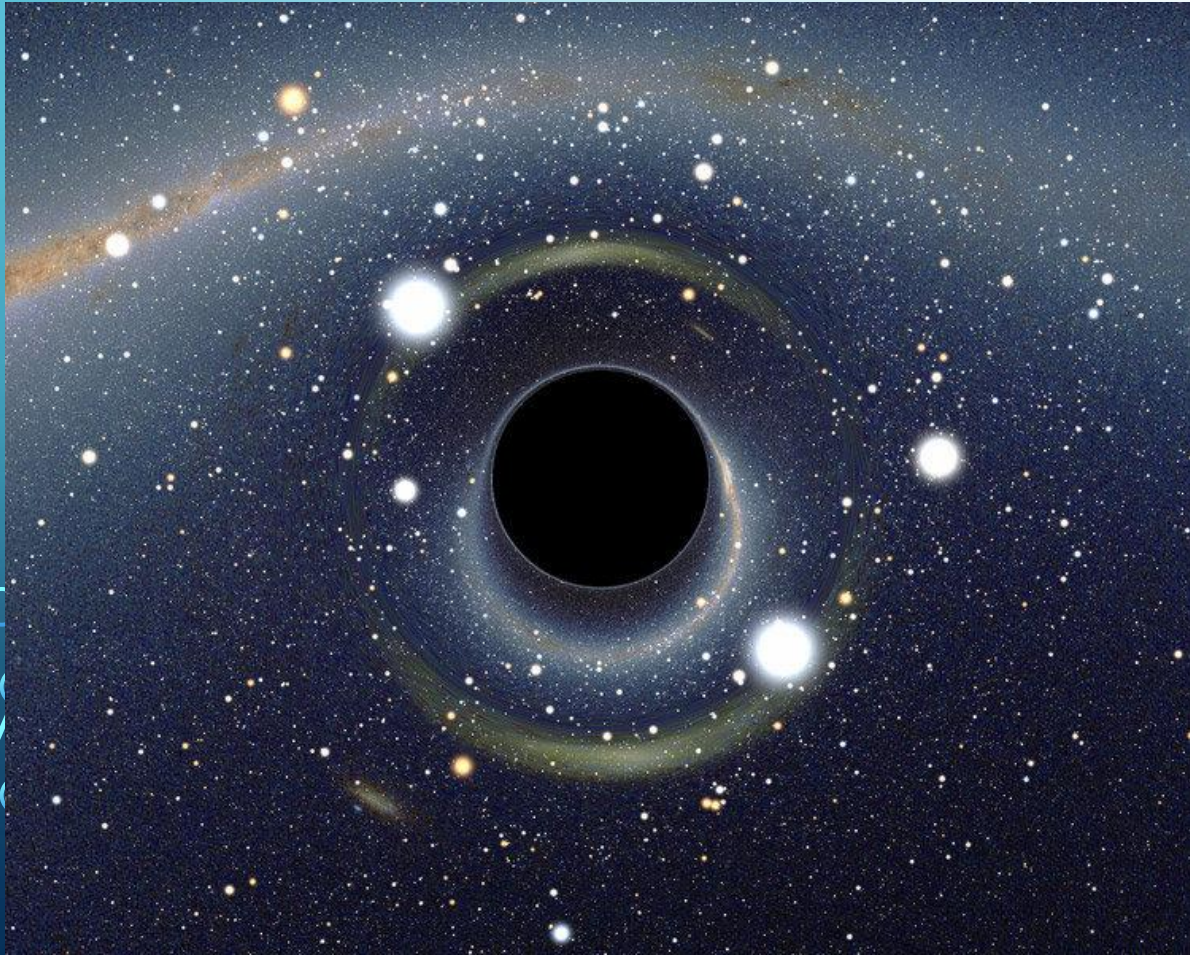

STEPHEN HAWKING

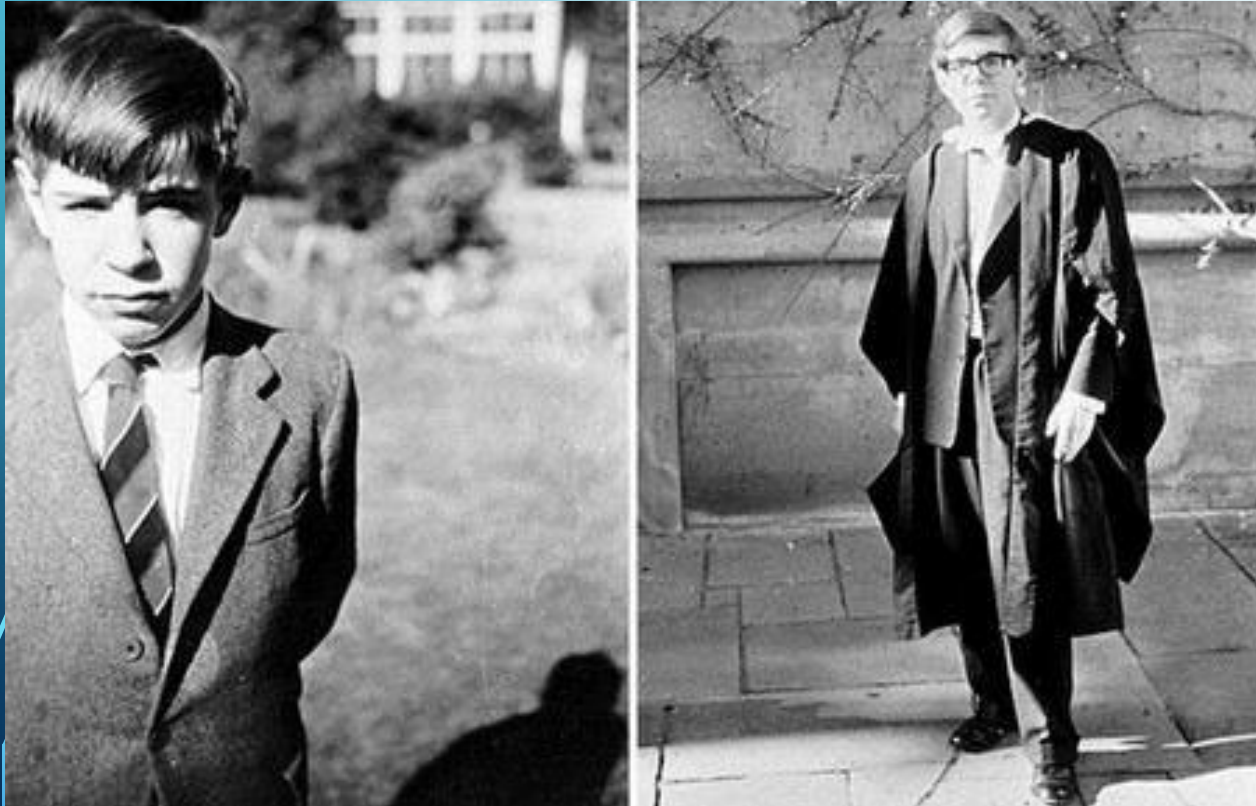

Stephen Hawking is a professor of mathematics at the University of Cambridge. He is a Fellow of the Royal Society and a member of the US National Academy of Science.

Stephen Hawking is one of the most brilliant the cortical physicists since Einstein. He studies black holes and explained how the Universe has begun.

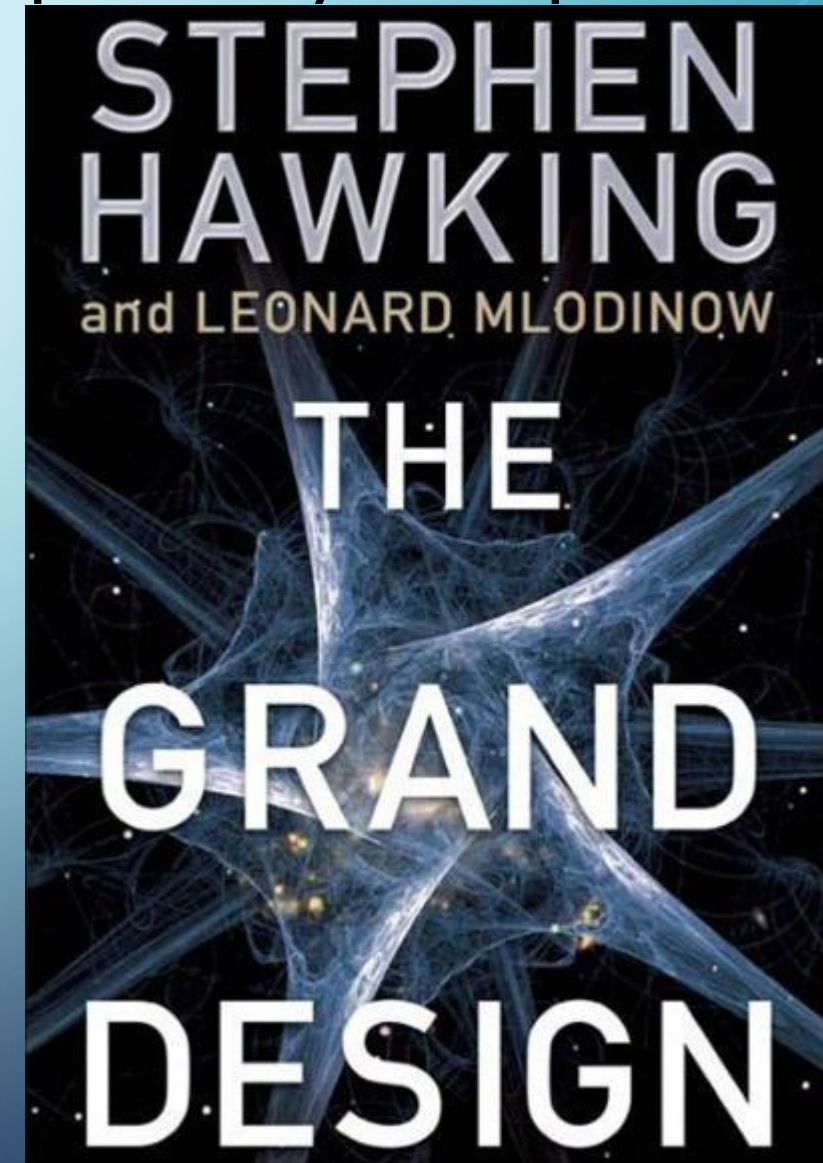

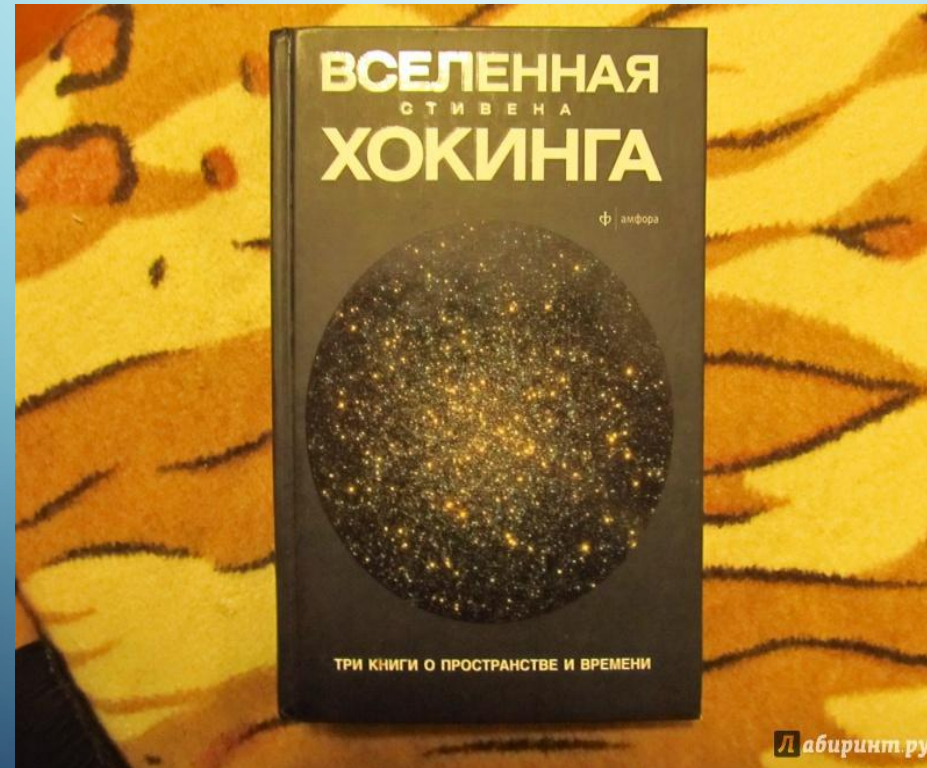

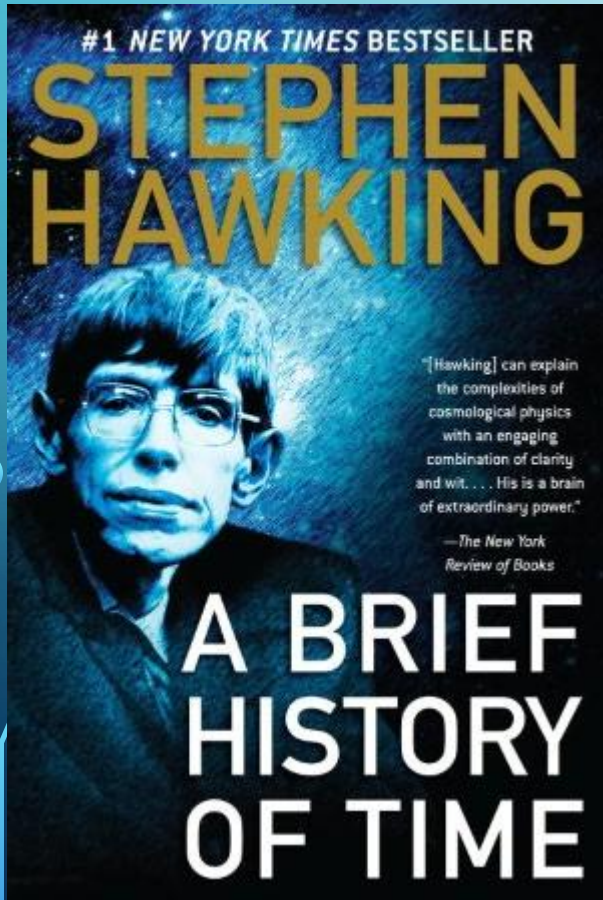

Stephen Hawking was born on January 8, 1942 in Oxford, England. When he was 21 he was diagnosed a rare decease that has paralyzed him. Doctors gave him two and a half years to live. But they were mistaken.

Stephen Hawking uses a wheelchair and communicate with the help of a computerised voice system through a cheek muscle attached to sensor. He continues his researches in the oretical physics. He has got a lot of awards, medals and prizes.

Stephen Hawking is the author of several popular scientific books, which are translated into many languages. Besides he hopes to fly into space.

I admire Stephen Hawking. He is a very good example of courage and will.

The background is a blue gradient with decorative circuit-like lines in the corners. The lines are light blue and form various geometric shapes, including circles and straight lines, resembling a network or data flow diagram.

THANK YOU FOR ATTENTION.
