

My Zoological society “We will save endangered animals“

Tatyana Dase
Form 6 a

Five questions for entry into our society

1. What is the name of the book in which there are names of all endangered animals?
- 2 .Are you ready to defend animals? What can you do for it?
- 3 In what Park of London one of the most famous zoo is situated?
- 4 .Why do you want to join in our society?
5. Do you have favourite animals? What is it?

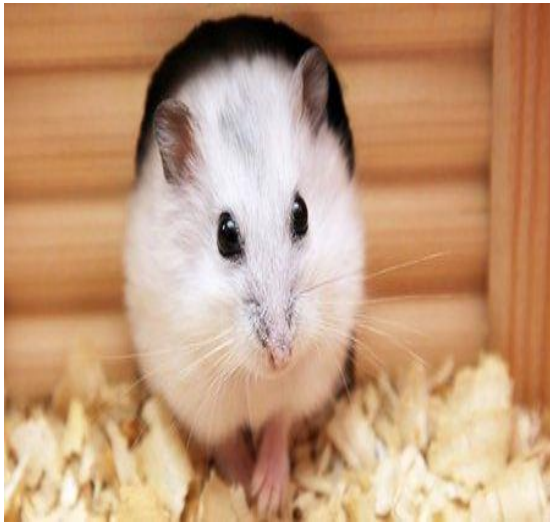

If I would be able to create my Zoological society in Russia, I tried to protect and multiply many endangered kinds of them.

In my society such rules would exist:

- ❑ do not betray our society
- ❑ help endangered animals, protect them,
- ❑ hold actions, so that people could also participate in animal care.

The charter of my society.

all who came in my company should comply with its laws, take an active part in its life and try to convert it to the world.

If I could create the Zoological society of the many kinds of animals... They will cease to be endangered.
