# My Future profession

There are a lot of interesting and useful professions. I am going to become a teacher. I suppose my future profession to be one of the most important nowadays.

My future speciality is English. I love children very much and to become a teacher has been my dream since my early childhood.

To teach and to bring up children is the most important thing. I am going to get the proper education to be able to do my best to teach my future pupils. I'll try not only to help them to master it. I'll try to help them to become good and clever people, to be honest, kind and noble.

Children are our future and I want them to be really good and educated people. Of course, the profession of a teacher is not an easy one. It demands a lot of knowledge, a lot of tenderness of feeling and sometimes a lot of patience. But I hope, that I'll be a good teacher and that my pupils will like me and my subject.
