

# Start

# Introduction

School is one of the tests that awaits every people. This presentation is dedicated to the school, namely, what it was, what it is now, our opinion about it and our assumptions about it's future.

# School of past

Schools in the past had less pupils, so they were small and rare.

Then children studied less, because mankind had less knowledges.

Pupils and teachers used less technologic tools.

# Present

## Feelings on the first day of school

On the first day of school, most of the people in our group were happy. We wanted to find new friends, we were glad to be there

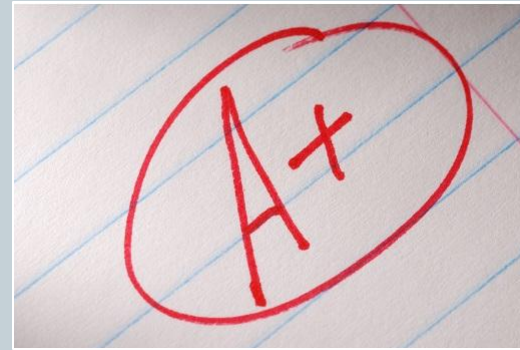

# Expectation

Meeting new  
classmates

Start learning  
better

Pass the exams

# What we like at school/what we don't like

- Good and cheap food

- The school is located near the house

- There are good teachers

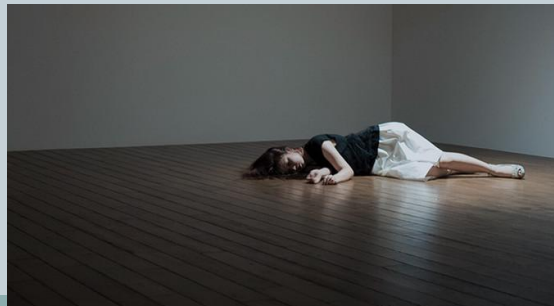

- Provide knowledge that can be useful in the future.

- School doesn't look good

- Not the best schedule

- Depression

# Future

There will be more  
schools in future

The school of the future  
will have the best  
technologies

Education will be  
better

By this presentation we wanted to tell you about the school and express our opinion about it. We hope that we were able to tell you about something new.

Thank you for attention!
