FURRY FRIENDS

POLAR BEAR

It lives in the far north. Can swim 60 miles.
It has got a white, large body, big legs and
brown paws.

PLATYPUS

This amazing creature lives only in Australia. It has thick brown fur, a duck-like beak and membranes on its legs! It lays eggs like birds and feeds its babies with milk!

PANDA

This wonderful bear lives mostly in China. It is black and white. There are very few pandas left in the wild nature. They like eating bamboo.

TIGER

These beautiful hunters live in India, China, Indonesia, Russian Far East. They are very strong and dangerous. People must protect them from dying

**WE LIVE ON THE EARTH.
IT IS OUR HOME.
IT IS A HOME FOR
ANIMALS TOO.
LET'S BE FRIENDS!**
