

Lagan is our home town

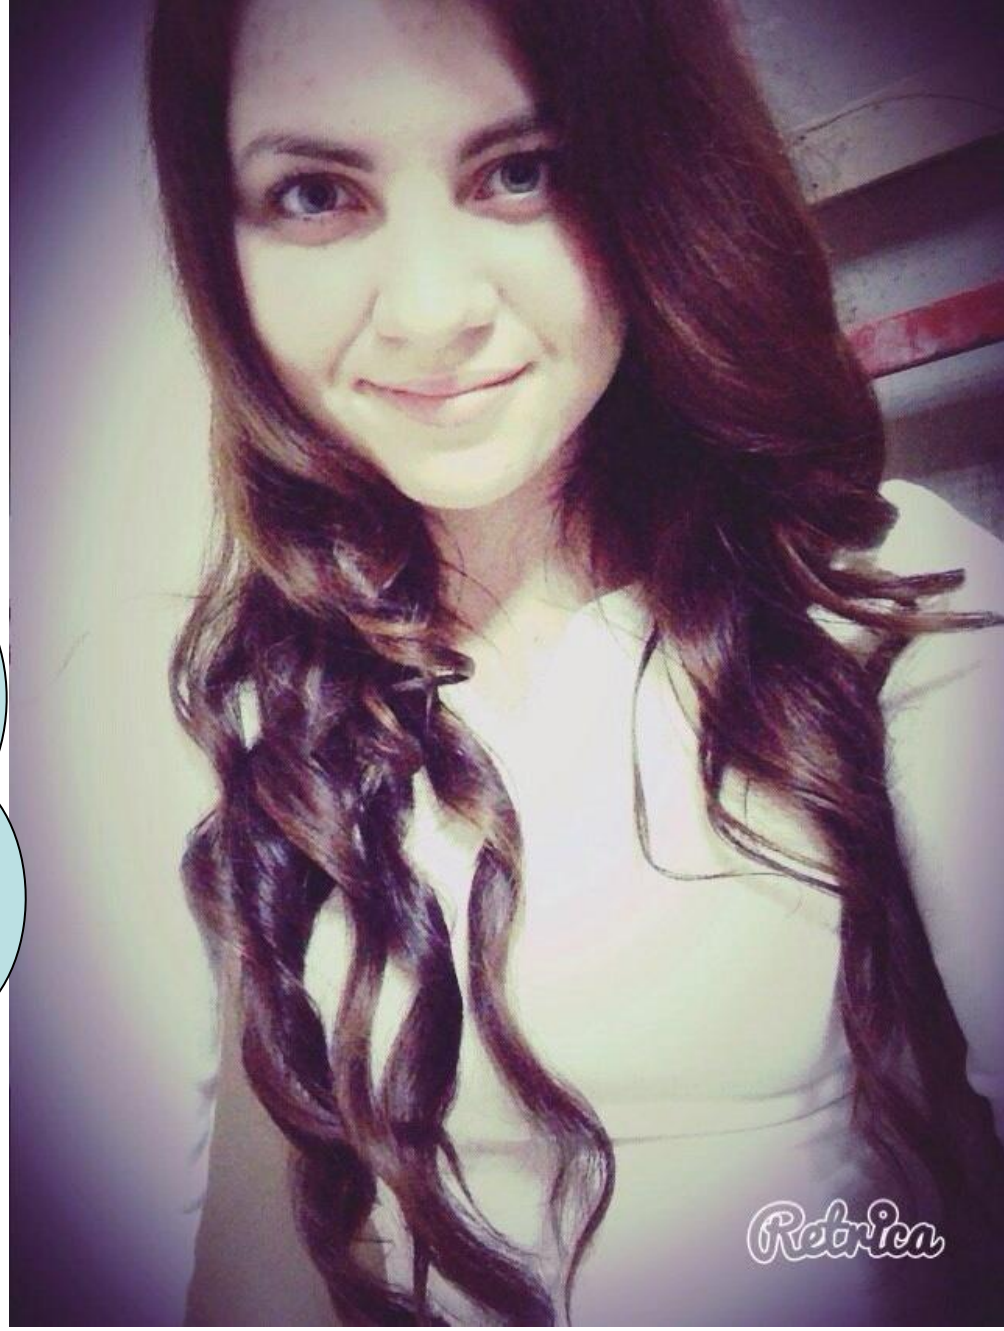

A scenic sunset over a body of water. The sun is low on the horizon, casting a golden glow across the sky and reflecting on the water. In the background, there are several buildings, including a church with two domes, and some trees. The foreground shows some reeds or grasses.

**Hi, dear friends!
My name is Zukhra.
I'm 17 years old
and I live in Lagan.
It is in Kalmykia.**

Hello, and my name is
Lyudmila. I'm also 16.
We are classmates. We
study at multiprofile
gymnasium in the 11th
form. We'd like to invite
you to our native place.
Lagan is my native
town. Here I was born,
here I'm living now. I
like it with all my heart
and I'm proud of it.

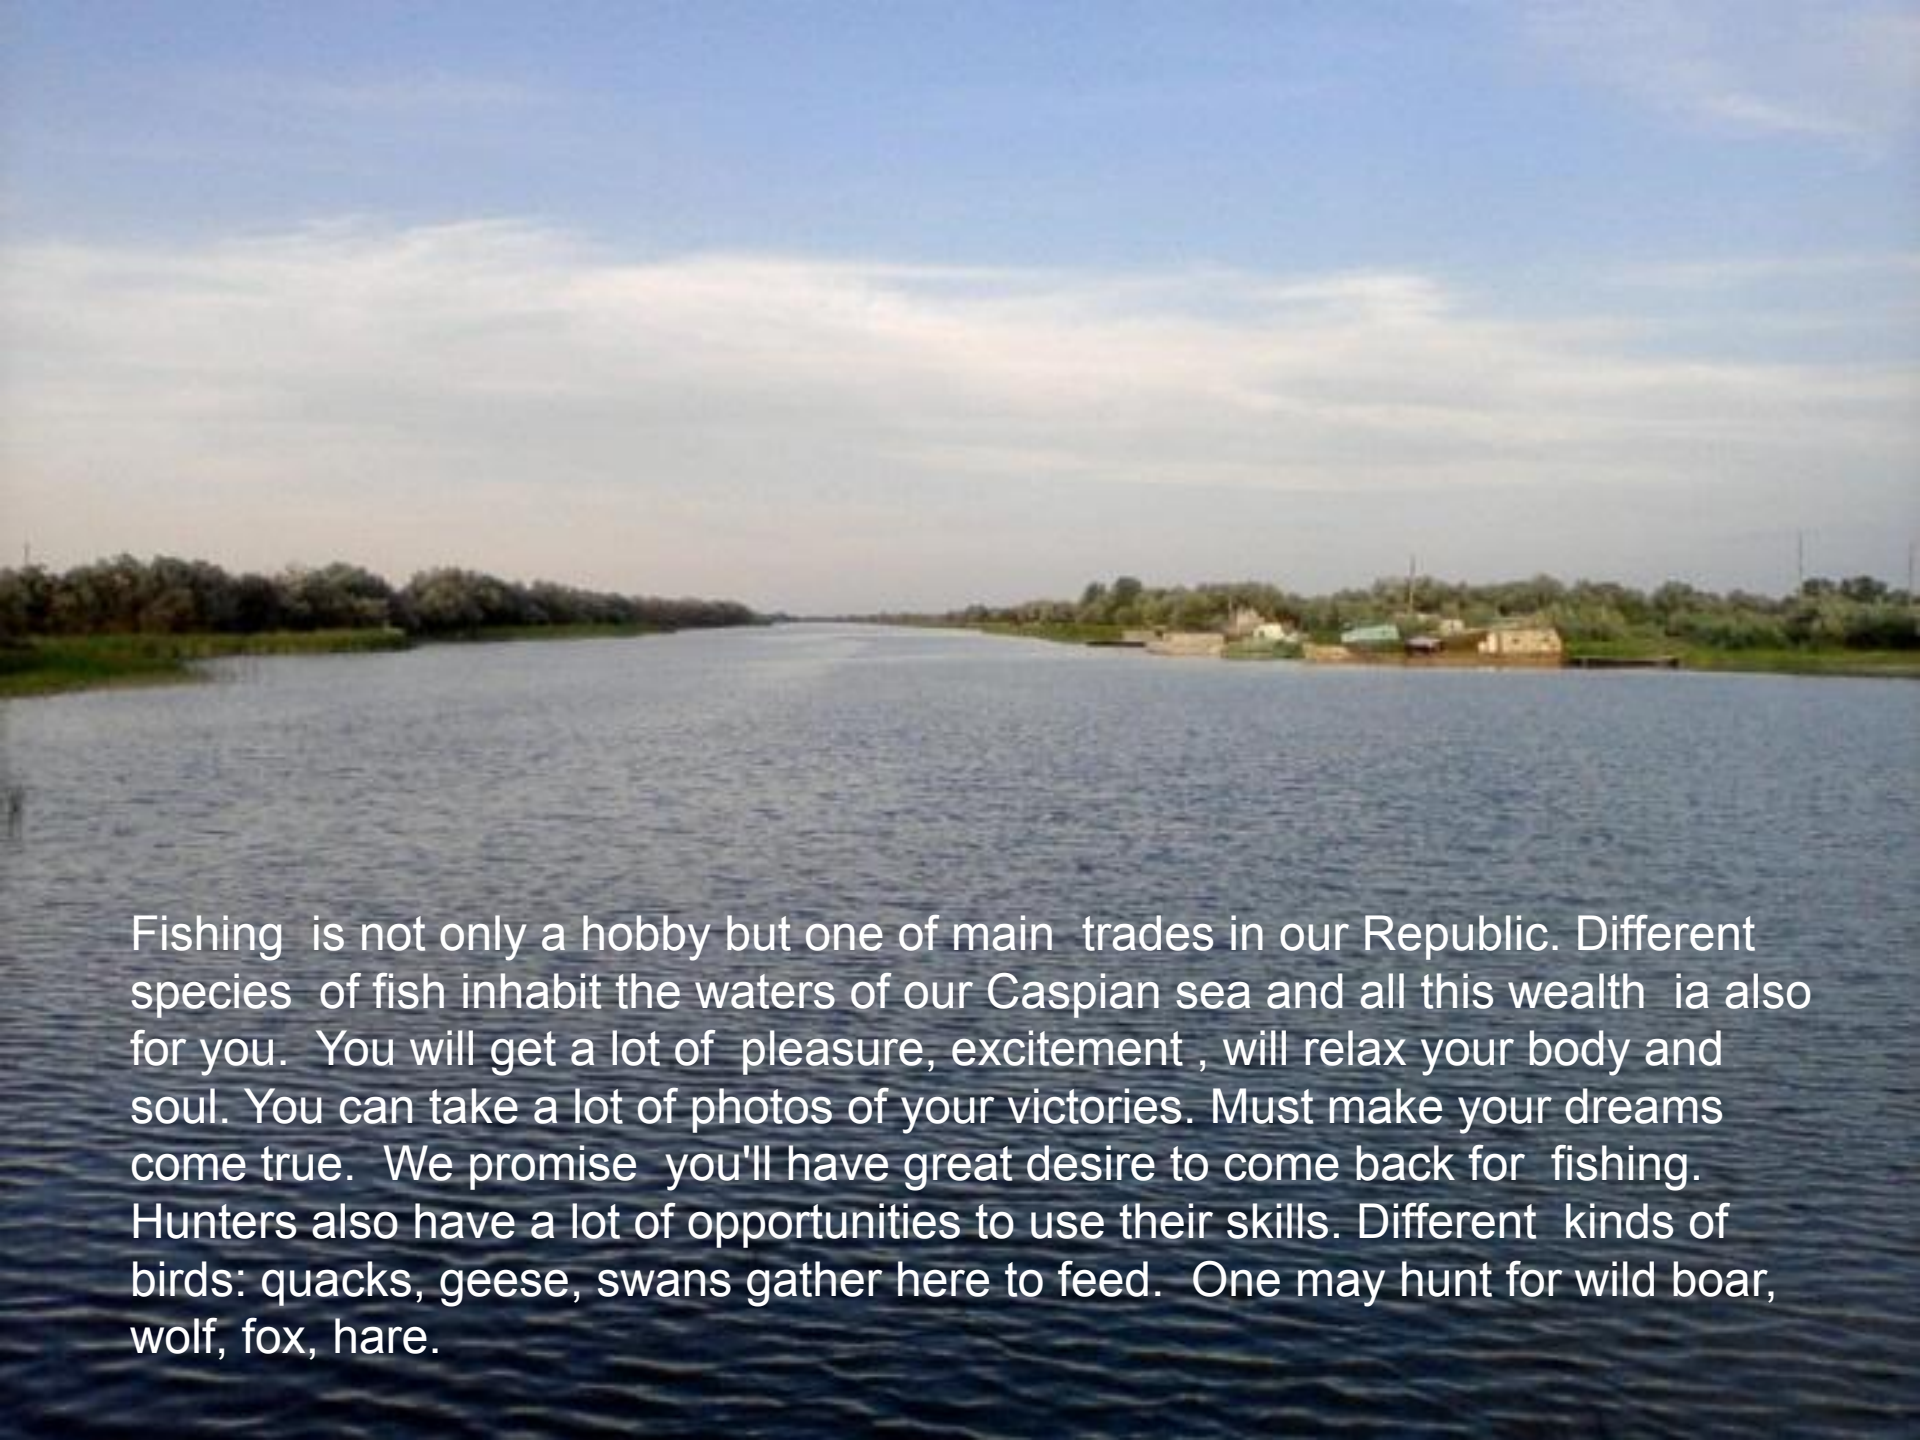

Our town is situated in the South of Russia near the Caspian Sea. It was founded in 1870 and was called Lagan. Due to our warm climate there are plenty of fruit and vegetables here in summer. One can't help but admire our nice cosy and green town.

- I'd like to say some words about our unique nature. The great diversity of life, fantastic flora and fauna. Due to our favorable climate, the hot sun and water feed everyone and everything. A lot of cane constantly produce oxygen and water nourishes the life-giving air. I would call our place a paradise!

Our place is famous for fishing and hunting. We are always waiting for you at any time and we will do our best to make your stay wonderful and unforgettable!

Fishing is not only a hobby but one of main trades in our Republic. Different species of fish inhabit the waters of our Caspian sea and all this wealth is also for you. You will get a lot of pleasure, excitement, will relax your body and soul. You can take a lot of photos of your victories. Must make your dreams come true. We promise you'll have great desire to come back for fishing. Hunters also have a lot of opportunities to use their skills. Different kinds of birds: quacks, geese, swans gather here to feed. One may hunt for wild boar, wolf, fox, hare.

We are proud to say that our people are very hospitable. They will treat you with healthy food in a comfortable and warm atmosphere. You'll be welcomed to eat tasty mutton, fish and vegetables. Our delicious food is made with love.

Welcome and see for yourself ! Lotuses attract a lot of tourists. People admire them and take a lot of photos. A gorgeous place and sight. You can also see lotus as a symbol on the coat of arms of our town.

There are a lot of opinions about the origin of the name of our town. Some people say it was named after a Kalmyk man Lag who was working after the cattle on the island. Some say it was a fishery island named because of soil.

Our local Orthodox church was opened in 2011. It was built due to the worship of our citizens.

Our local poet

Lagan's star

This motif is inspired by the winds
and whispered by the reeds
these words were prompted by steppes
listen to them, just listen.
Songs fly above the sea bend
It sings Lagan
Stars burn in the sky of the best tunes
Try to become a new star.
This gentle evening is the soul's celebration
snoozing away the surf
song is circling to its appointment
Make up friends with it and sing
it's high time, time rolling fast
clocks go by
Stay forever little town
Like gulls on the shore and in the sky.
