

**«My free time»**

**Burgonov Daniil**

Every person has free time when he or she can do favourite activities. For example: drawing, reading, watching TV, fishing, knitting, swimming and so on.

Best of all I am keen on playing chess. I play chess on Tuesdays and Thursdays.

I`m also  
interested in  
sport.  
I do  
taekwondo  
three times  
week.

Music is my hobby too. I am good at singing and playing the piano. I often attend an art school.

I think, summer is the best season for hobbies. In summer I like fishing, riding a bike, and swimming in the river Bityug.

# I`m fond of beekeeping.
