

Titanic is one of the biggest ships that crashed into a huge iceberg. It is called the ship of dreams.

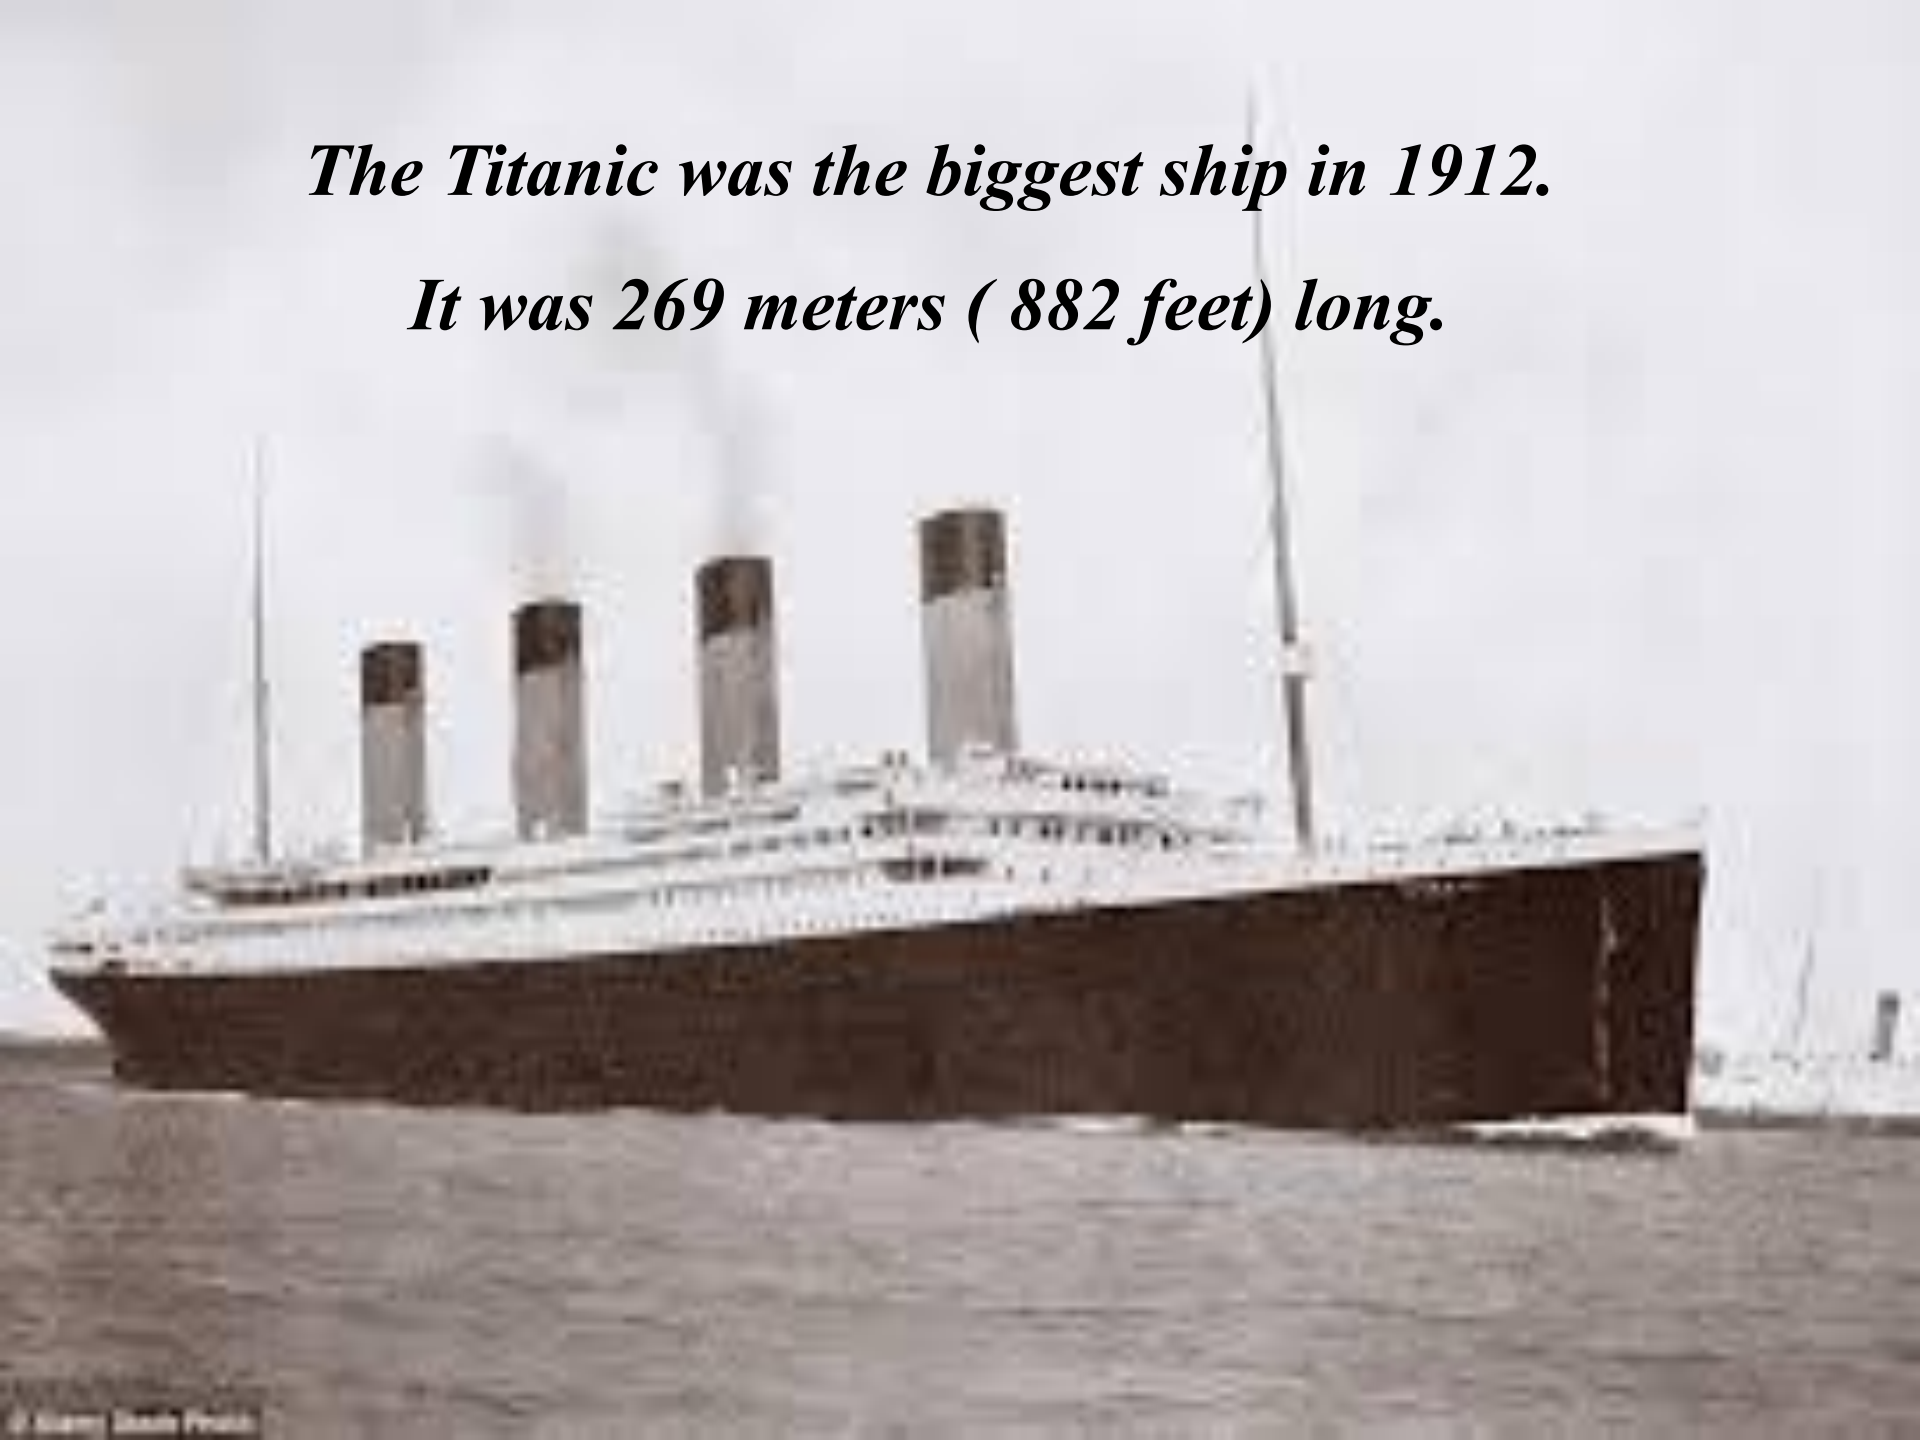

*April 10, 1912 – the Titanic
made her first voyage from
Southampton to New-York*

The Titanic was the biggest ship in 1912.

It was 269 meters (882 feet) long.

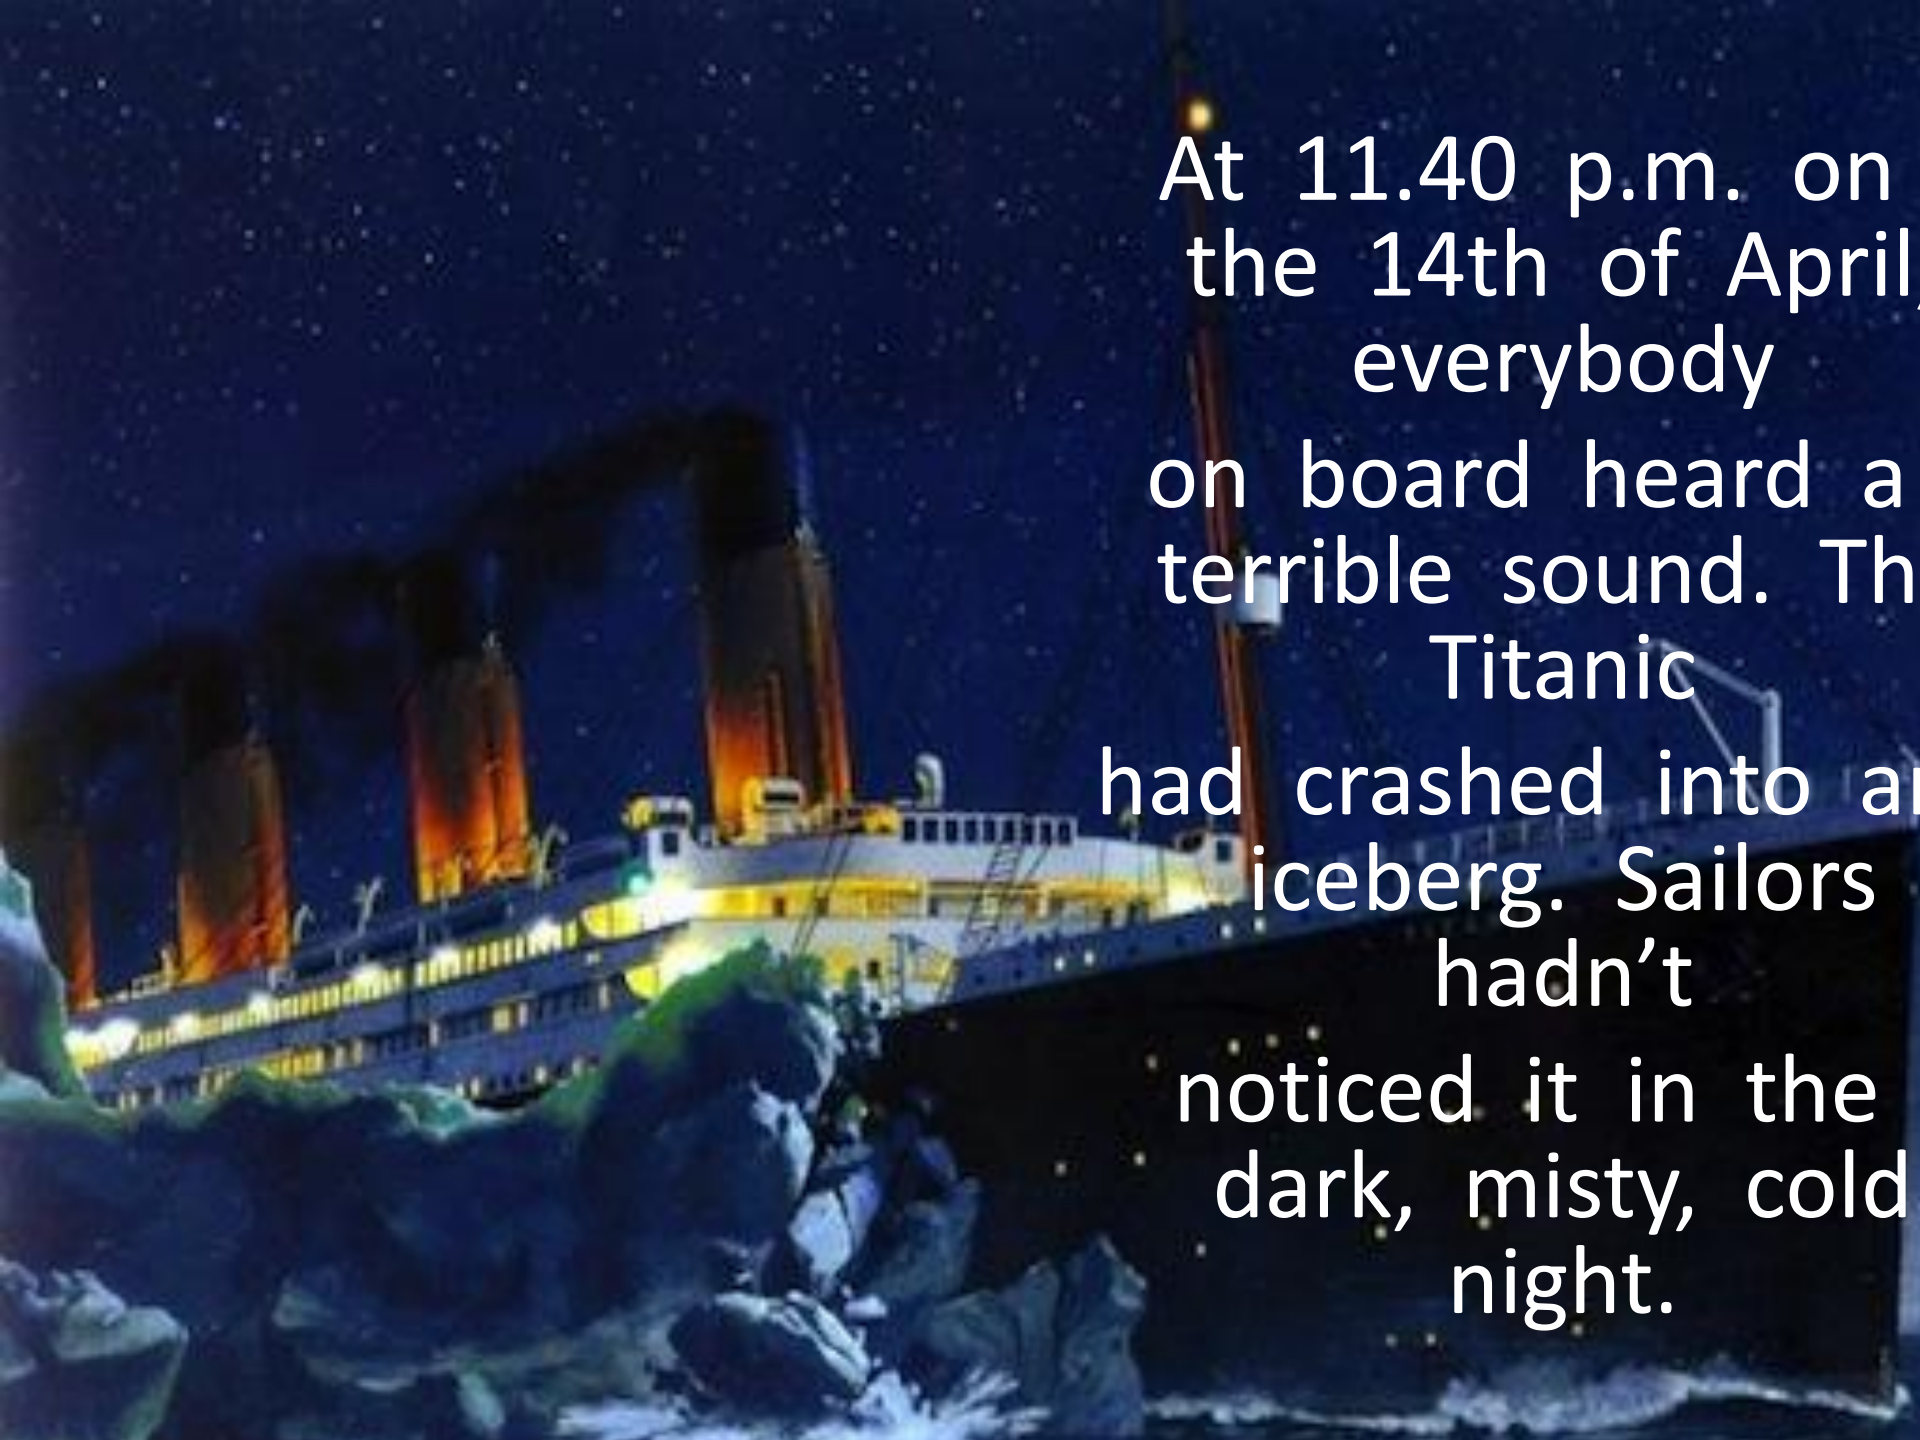

*Titanic was built
in Belfast.*

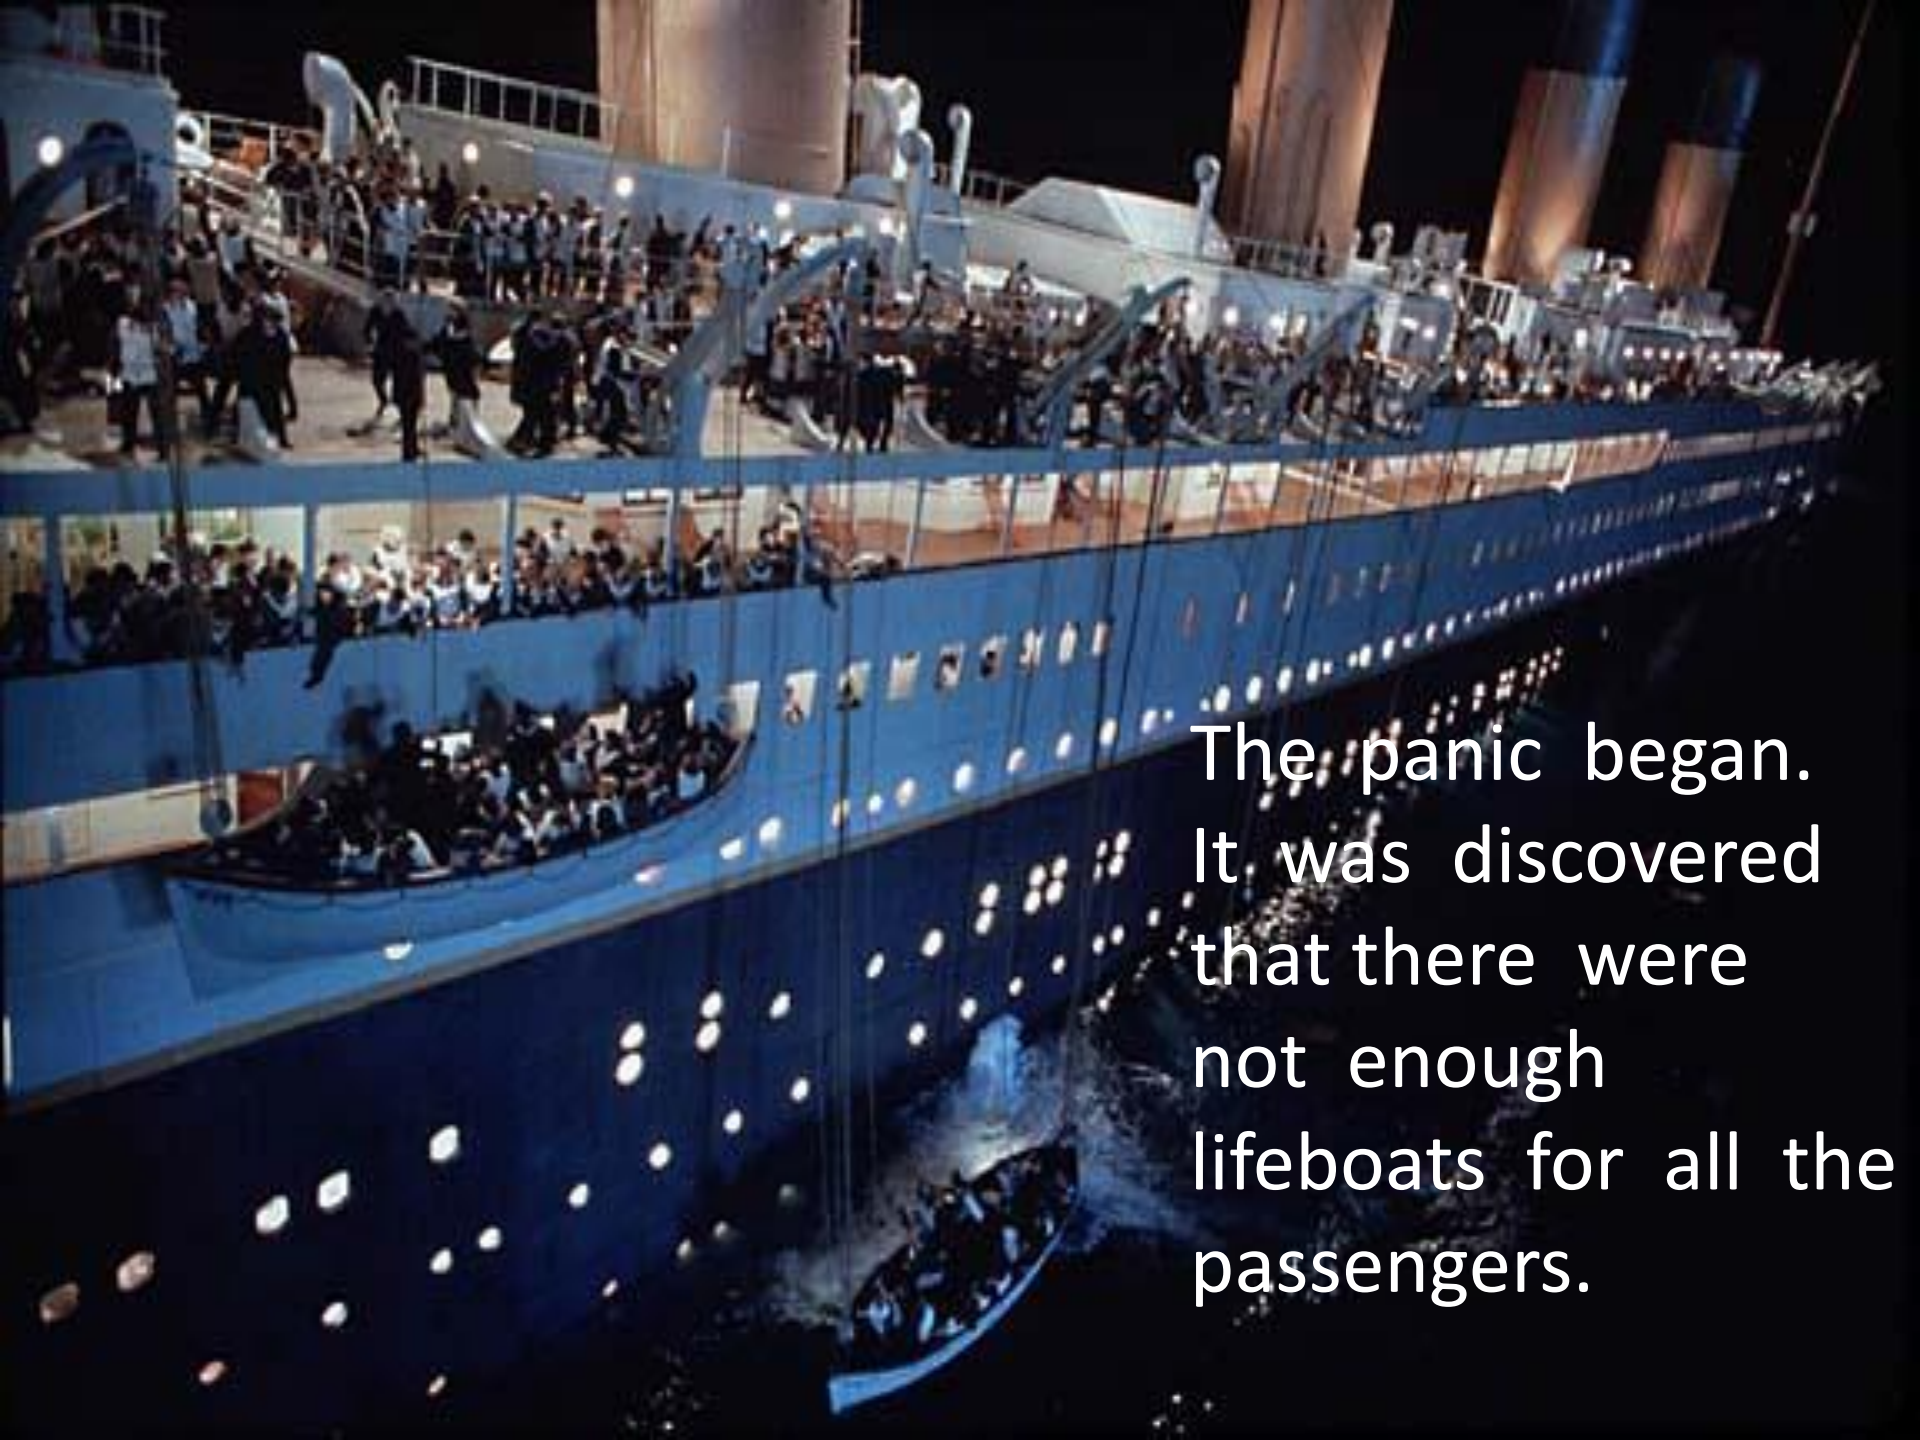

*Thomas Andrews,
her architect, died
in the disaster. He
was sure that the
Titanic was
absolutely safe and
unsinkable*

The ship was fantastic. First class passengers could have everything they wanted: lovely music, delicious food, lots of entertainment. They felt relaxed and happy.

At 11.40 p.m. on
the 14th of April,
everybody
on board heard a
terrible sound. The
Titanic
had crashed into an
iceberg. Sailors
hadn't
noticed it in the
dark, misty, cold
night.

The panic began.
It was discovered
that there were
not enough
lifeboats for all the
passengers.

At 2.20 a.m. on
15th of April
the Titanic
sank and took
more than 1500
lives with
her.

A scene from the movie Titanic showing Jack and Rose on the deck at sunset. Jack is on the left, looking towards Rose, and Rose is on the right, looking forward with a joyful expression. They are both wearing period-appropriate clothing. The background is a soft, colorful sunset sky.

*The film
“Titanic”.
represents an
epic love story of
a 17-year-old
aristocrat and a
free-spirited boy,
who won in cards
his third-class
ticket.*

It is like the history of
“Romeo and Juliet” on the
sinking ship that has become
the international sensation.
