We have got our favourite teacher.

Her name is Olga Mikhailovna.

She is kind and cute. She teaches us the English language. Olga Mikhailovna has a collection of bells. She has collected bells for 7 years and she has got some bells.

Free-time activities

Chess

Interesting and exciting

to walk to think to talk

*The aim of the game is «checkmate»the
opponent`s King*

a popular game

Our favourite day of the week has changed through the years. When we were young children, we loved Saturdays and Sundays because they were the family time at home, when we played different board games. Our favourite board game is chess. It is a two-player board game played on a chessboard, with 64 squares. The most important figure in chess is King. The aim is to "checkmate" the oponent's king.

Now, our favourite day is Saturday because we do our free-time activities. Our favourite free-time activity is playing chess. We like chess. We enjoy playing chess. We are very keen on playing chess with our families. We are mad about watching chess on TV. We are fond of going on trips with our chess club. A visit to our chess club is an excellent way to study playing chess. We are good at chess.

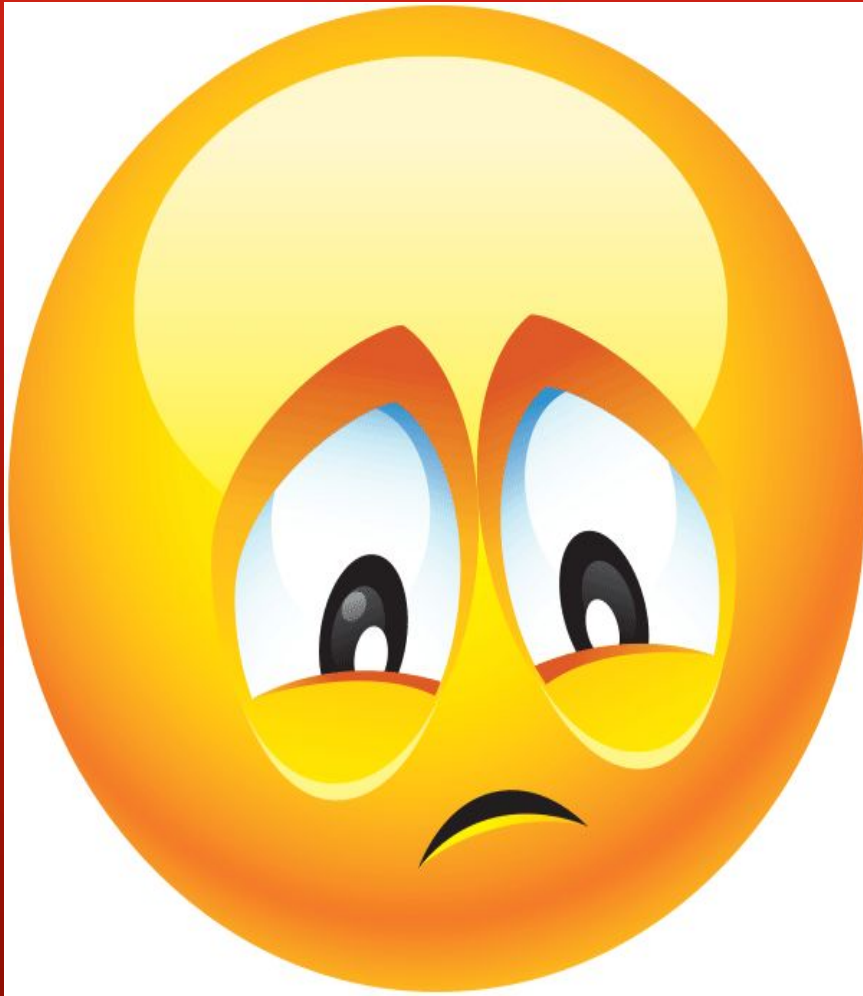

Now our favourite day is Saturday, too, because it is our leisure time. Leisure time is free from work, study and household duties. The ways people spend their leisure time normally differ according to the age group: middle-aged and elderly people normally prefer watching TV or going to the theatre, or sometimes gardening, younger people enjoy more active pastimes like doing extreme sports, visiting discos or travelling. Teenagers normally prefer to do extreme sports with speed, height and danger. Some people normally like watching action films, comedies, musicals, thrillers and cartoons. We have got a lot of activities in our leisure time but our favourite activity is playing chess. We like chess. We enjoy playing chess.

We are fond of going on trips with our chess club. A Visit Our chess club is an exelent way to study playing chess. We`re mad about watching chess on TV. We are keen on playing chess with our families.

We also don't like other days especially we don't like Mondays because they mark the beginning of a new week of productive activities. We must go to school , we have to wake up very early. People say "Monday is a hard day" and we agree with them.

A visit to our chess club is an excellent way to study playing chess. We are good at chess. You can study playing chess from our chess teachers. We have lessons on Mondays , Wednesdays and Fridays . But you must be safe on the road.

***Thanks for
watching!!!***
