Good Education is a key to your future.

An Ideal School.

Our plan for today:

- 1. System of education in Russia.
- 2. System of education in Great Britain.
 - 3. An ideal School.

to go to school primary/secondary school learn/study different subjects go in for sport to take part in to have school traditions state schools independent schools private schools day school boarding schools

*The main subject, the most important for any educated person. How do you think what subject is it?

*Subjects studying facts, the world around us. What are they?

*Subject where we work mostly with our hands.

*Subject where we study computers.

*Subjects for pleasure. How do you think what are they?

*And we have got two more subjects that at first glance haven't got any practical value. But they are very special. They make anybody who is studying them cleverer. They influence our brains and we become cleverer no matter if we want it or not.

*What are they?

*An assembly hall

*A cloakroom

*A medical room

*A staff room

*A library

БИБЛИОТЕКА

*A gym

*A canteen

*A history classroom

* A biology classroom

*A geography classroom

*An English classroom

*A chemistry laboratory
