- The Internet is a huge network of computers. Public Internet began in the late 70's. The Internet is very helpful, because it is a huge database of knowledge. Everyone should have the Internet as a means of communication. Besides data one can get from the Internet, we can also send and receive e- mail. This internet service is cheaper than ordinary mail and much quicker. It is becoming popular day by day. We can get some news from the Internet, because there are many informational services in the web. For this we can get use different search programmes such as the google search programme, rambler search programme, yandex search programme or yahoo search programme. They are very simple and popular networks of sites

- 1. Ғаламтор – бұл компьютерлердің орасан зор желісі.
- 2.Ғаламторды жаппай қолдану, 70 жылдардың соңында басталды.
- 3.Ғаламтор өте қажет, себебі ол білім мен деректердің улкен базасы.
- 4. E-mail әдеттегі поштадан арзанырақ және анағұрлым  тез жұмыс істейді.
- 5.Ғаламторда ақпараттық серверлер көп, демек жаңалықтарды алуға болады.
