

# Lewis Carroll (1832-1896)

## «Alice's Adventures in Wonderland»

# Lewis Carroll

He was an unusual man who led three lives.

One was the life of a mathematics don at Oxford University. He loved the subject he taught but his students found him humorless and dry.

In his second life he was a child photographer.

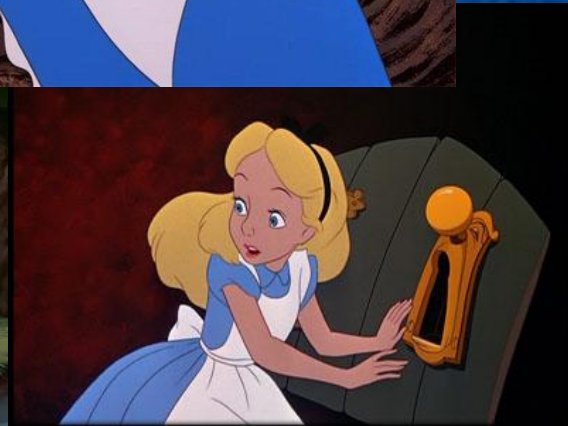

He is the best remembered as the author of the wonderful book that is read and enjoyed by children and grown ups all over the world.

The title of the book is

# «Alice's Adventures in Wonderland»

Description: Alice runs for the White Rabbit and suddenly falls into a deep rabbit hole, which displays it in the mysterious land.

In this land she met unusual persons. In general it was fantastic journey.

In the end Alice wakes up and realizes that everything that happened was just a dream.
