**Most of school libraries have a reading – room, but in our library has not reading – room, but our library is a very beautiful, because it has many famous writer’s and poet’s books, arts, books on history. Pupils go to the library to read books.**

- **Librarian in our school helps the pupils to find books, which they need.**
- **Many teachers go to the school library too. They like to take books from their school library.**

**•Our library is the best library for me. I like our library. I think it is difficult to live without libraries.**
