# Region and State

- In USA, there are 6 regions: New England, Mid Atlantic, The South, The Midwest, The Southwest and The West.
- In each regions, there are many states. 6 states in New England, 6 states in Mid Atlantic (The city), 12 states in The South, 12 states in The Midwest (farm and agriculture), 4 states in The Southwest (great landscape with prairie and desert), 11 states in The West (home of the cowboy)

# The cities

- Big city or often called metropolitan, are where most of people in USA live
- The most populated state in USA is California, with over 37 million people (12% of total population) followed by Texas, and New York
- Many people like to live in the city, because there are many jobs, and places to go like malls, playgrounds, and swimming pools
- But the city also can be very crowded and unpleasant to live in

# The country sides

- Some people prefers to live in the country side where life is slower, and easier
- People work mostly on the farm, and sell local goods to the shops
- The country side are greener, cleaner, and house are far apart. It is not crowded like the city
- The countryside is mostly quite, peaceful, and not busy like the city
