

The profession of a "Web designer"

Grazhdannickova Nastya

The word design has recently appeared in the Russian language. It came from the Italian language . With the rapid development of modern technologies, the concept of design has acquired a new, broader meaning.

Design emerged in the early 20th century as a result of a natural formation of visual and functional properties of the world. In the basis of web-design is based on :
the principle of functionalism and constructivism .

Web-design poses a variety of purposes : simplicity and clearness of the site structure , the convenience of the navigation system .

Web design is one of the most modern types of design art . With the development of computer technology virtually all human activity has moved in 3-dimensional space . All calculations perform machines.

The most widespread type of activity of a modern designer is to create the layout for the site .

Web designers - creative specialists .

Outstanding people: Artemiy Lebedev

Born on February 13, 1975. He studied in Moscow school № 273, 583 and 57. One year studied in Baltimore Parkville High School.

After school he entered the faculty of journalism of the Moscow state University. M. Century Lomonosov, who never graduated .

In January 1993 he established an independent Studio . Participated in the creation of books, magazines. In 1995, he founded the Studio of WebDesign . Studio of Artemiy Lebedev was also doing the industrial design.

In connection with the development of the Internet around the world there was a demand for the profession of a Web-designer.

Web-designer is a person with artistic taste and well-versed in the Internet technology, which creates Web pages and integrates them into Web-sites.

DESIGN
DESIGN
DESIGN.

Artistic taste is the main thing that should be a Web-designer .

WEB-designer is a specialist in the sphere of computer technologies is responsible for how is perceived and Internet site. He comes up with logos, banners, and other graphic elements, thinks navigate your site

This profession is becoming more and more relevant in our time of global computerization and Internet network.

The profession of the web - designer includes two aspects: the ability to use special computer programs , design activities.

The main task of
web-designer - dress
Internet-project to increase the
number of users interested in
them

I think that the profession of a web designer is very interesting . Because web designers create clearance various sites and gives them a special color that attracts the attention of Internet users . Web designer should be a creative person and should have a good imagination .
