Tower Bridge

Tower Bridge is one of London's most famous symbols. It was opened in 1894. Tower Bridge houses an excellent museum telling the story of the bridge's design, construction and history.

London Bridge is a bridge between the City of London and South wark in London, U.K., over the River Thames. Situated between Cannon Street Railway Bridge and Tower Bridge

Westminster Bridge over the River Thames with the Houses of Parliament and Big Ben in the distance.

Westminster Bridge is a road and foot traffic bridge over the River Thames between Westminster and Lambeth.

Hammersmith
Bridge

Waterloo Bridge

The name comes from the Battle of Waterloo, an important British victory during the Napoleonic Wars.

The current bridge was completed in 1945 and is made of Portland stone.

Queen Elizabeth II Bridge

Albert Bridge

Blackfriars Railway Bridge

**The current Blackfriars Bridge was opened
by Queen Victoria
in 1869;
it is both a vehicle and pedestrian bridge.**

The Millennium Bridge: 2000

The Millennium bridge is a pedestrian bridge erected to connect the Tate Modern Art Gallery to the City and St Paul's Cathedral.
