"SDG Supporters" team
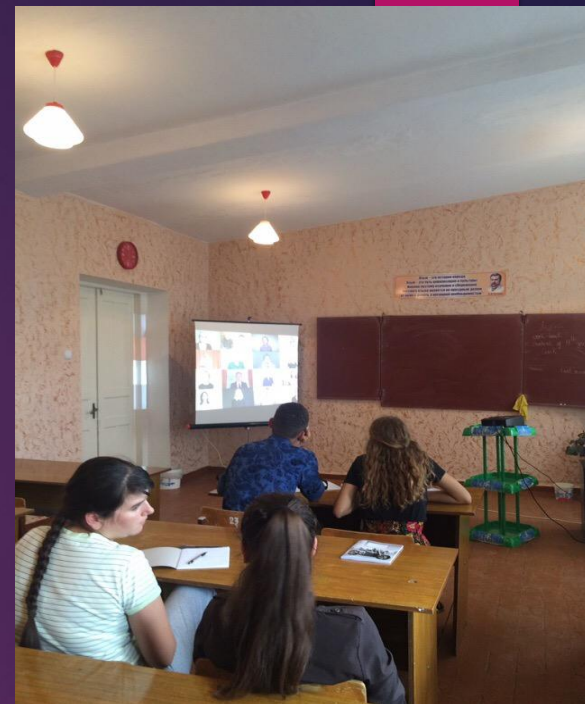

VOCATIONAL SCHOOL VULCĂNEȘTI

Let us explain what does Vocational School means . Vocational means that together with the school programe we also study professions

AFTER THE GRADUATION SOME OF US WILL BE MECHANICS, PLASTERERS AND MASONS, COOKS AND TAILORS

On the English lessons our teacher told us about the UN Sustainable Development Goals and that there is a National project related to the SDG's . And we decided to participate. Watched a lot of videos and browesed through the information about the world's problems. We were shocked, hearing the situation of hunger and gender inequality even in our country existed.
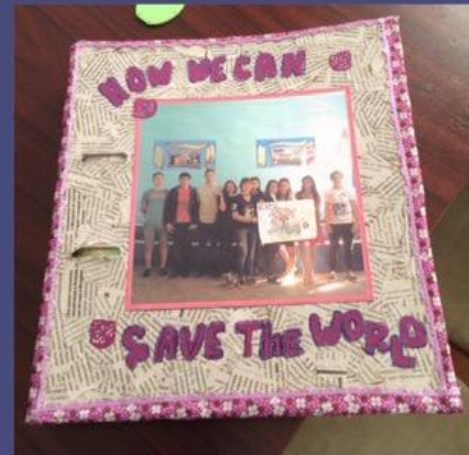

WATCHING THE VIDEOS

We had a discussion about our team's name

AND CREATED A POSTER WHICH PRESENTS OUR TEAM AND OUR THOUGHTS ABOUT THE UN SUSTAINABLE GOALS

When we heared about the scrapbook creation we were very exited with the fact that we will share this scrapbook with our partners and we tried to do ur best.

► A few days before the scrapbook creation, we helped the secretary of our school with cleaning and there were a box where we put old magazines, newspapers, paper and an old folder. Motivated with UN Goals we decided to recycle all that staff and to use them in our scrapbook. So that is why our scrapbbok is covered with newspaper pieces.
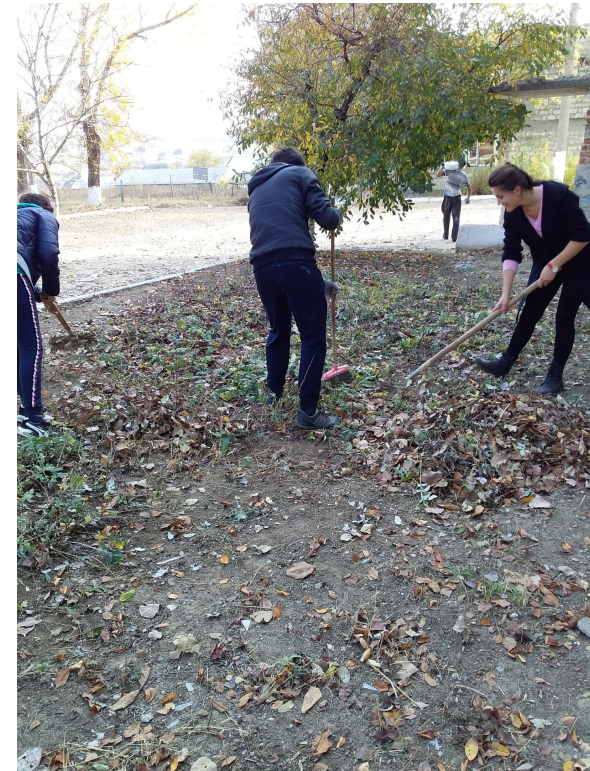

Some images of our scrapbook

Keep on browsing through the information about Un goals and after the reading of our partner's scrapbook , we realized ,that we can save and change the world if we start from ourselves. So we choose goal 15 to stand for and support.

And we began to move from words to action.We start with clean up activities around our school , trying to involve more and more students   in them.

In partnership with our school principals we organized a big   school cleaning day and the result was amazing

So these are only our first steps ,but we' ll keep moving forward because we can make the world a better place !!!

► Thank you for your attention !!
