

- What date is it today?
- What day is it today?
- What season is it now?
- What's the weather like today?
- Do you like winter?
- What can you do in winter?

Match the words from the two columns.

- | | |
|---------------|-------------|
| 1. elephant | a) mane |
| 2. peacock | b) horns |
| 3. lion | c) fur |
| 4. bear | d) trunk |
| 5. giraffe | e) feathers |
| 6. monkey | f) hump |
| 7. deer | g) stripes |
| 8. tiger | h) teeth |
| 9. camel | i) neck |
| 10. crocodile | j) tail |
-

Classify the animals.

lion, cobra, deer, grasshopper, crocodile,
frog, ant, cow, horse, bee, kangaroo, dolphin,
mosquito, peacock, salmon, tortoise, budgie,
cat, beetle, koala, flamingo, ladybird

lion, cobra, deer, grasshopper, crocodile,
frog, ant, cow, horse, bee, kangaroo, dolphin,
mosquito, peacock, salmon, tortoise, budgie,
cat, beetle, koala, flamingo, ladybird

	FISH	AMPHIBIANS and REPTILES	BIRDS	MAMMALS

What is our today's lesson devoted to?

It's an
insect's life!

Types of insects

mosquito

fly

butterfly

wasp

bug

bee

ant

dragonfly

grasshopper

caterpillar

beetle

ladybird

Is the statement true or false?

	Before reading	After reading
1. There are about five million insects in the world.		
2. Insects live in different places.		
3. Insects aren't important.		
4. Insects can't make food.		
5. All insects have got six legs.		

There are about 10 million types of insects in the world.

These little creatures live in our homes and gardens. Some live near water, others live in fields, parks and forests.

Some insects come out during the day while others come out at night.

Insects are really important.

They keep our gardens clean because they eat dead leaves and other waste.

They are also an important food for birds and other animals.

Some insects, like bees, even make food - honey.

Is the statement true or false?

	Before reading	After reading
1. There are about five million insects in the world.		
2. Insects live in different places.		
3. Insects aren't important.		
4. Insects can't make food.
