**A CROCODILE**

A close-up photograph of two piglets. The piglet on the left is white with a light brown patch on its face. The piglet on the right is brown. They are touching their snouts. The background is dark and out of focus.

**A PIG**

**A MOUSE**

A close-up photograph of an owl's face. The owl has large, wide-open eyes with a dark center and a lighter, brownish-orange ring. Its feathers are a mix of grey, brown, and white, with a mottled pattern. The owl's beak is visible in the lower center. The background is a soft, out-of-focus greyish-brown.
