# Cluster - Method

## *Технология составления:*

1. Ключевое слово;
  2. Запись слов вокруг основного слова. Они обводятся и соединяются с основным словом;
  3. Каждое новое слово образует собой новое ядро, которое вызывает дальнейшие ассоциации. Таким образом, создаются ассоциативные цепочки;
  4. Взаимосвязанные понятия соединяются линиями.
- 

# Возможности использования:

1. Кластеры могут стать ведущим приёмом на стадии **вызова**,
  2. Систематизация информации, полученной до знакомства с основным источником (текстом) в виде вопросов или заголовков смысловых блоков; на стадии **рефлексии**,
  3. Исправление неверных предположений в предварительных кластерах, заполнение их на основе новой информации, установление причинно-следственных связей между отдельными смысловыми блоками (индивидуально и в группах).
- 

# Возможности использования:

4. При систематизации, повторении материала;
  5. При работе с текстом;
  6. При повторении в начале урока;
  7. При введении в тему;
  8. При сборе необходимого языкового материала;
  9. При контроле.
