

OUR FRAGILE PLANET, CAN IT BE SAVED?

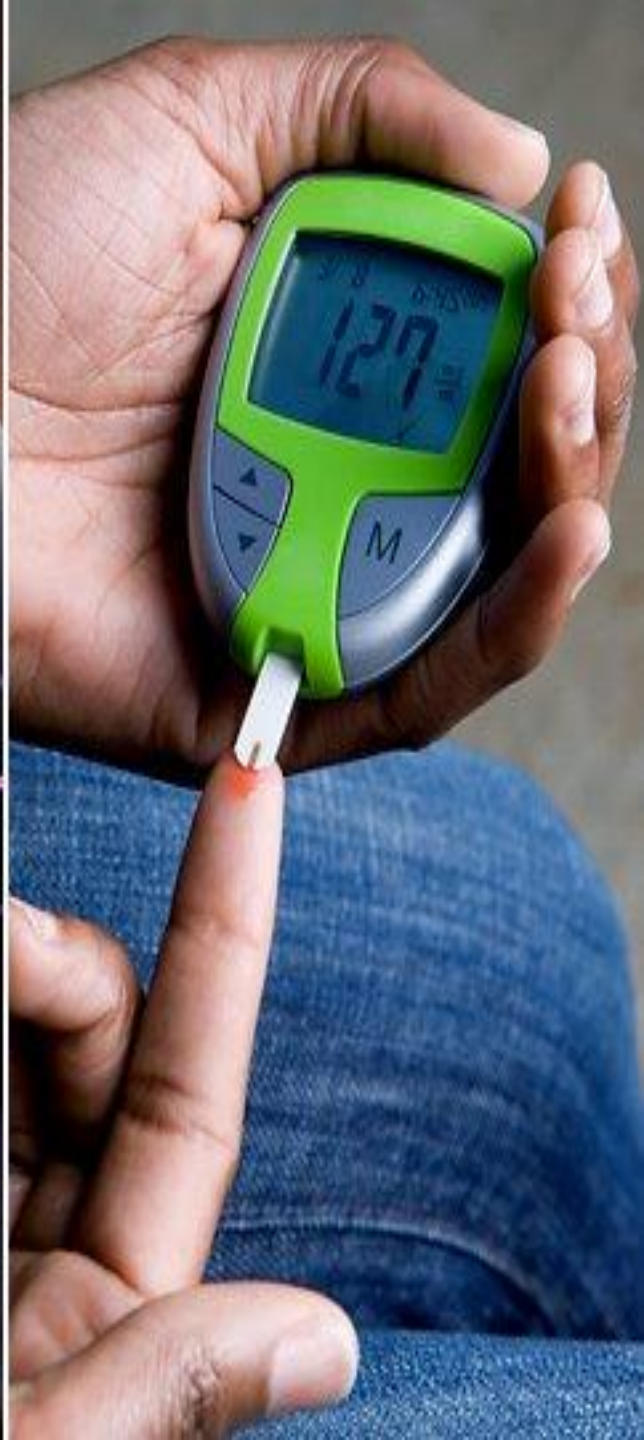

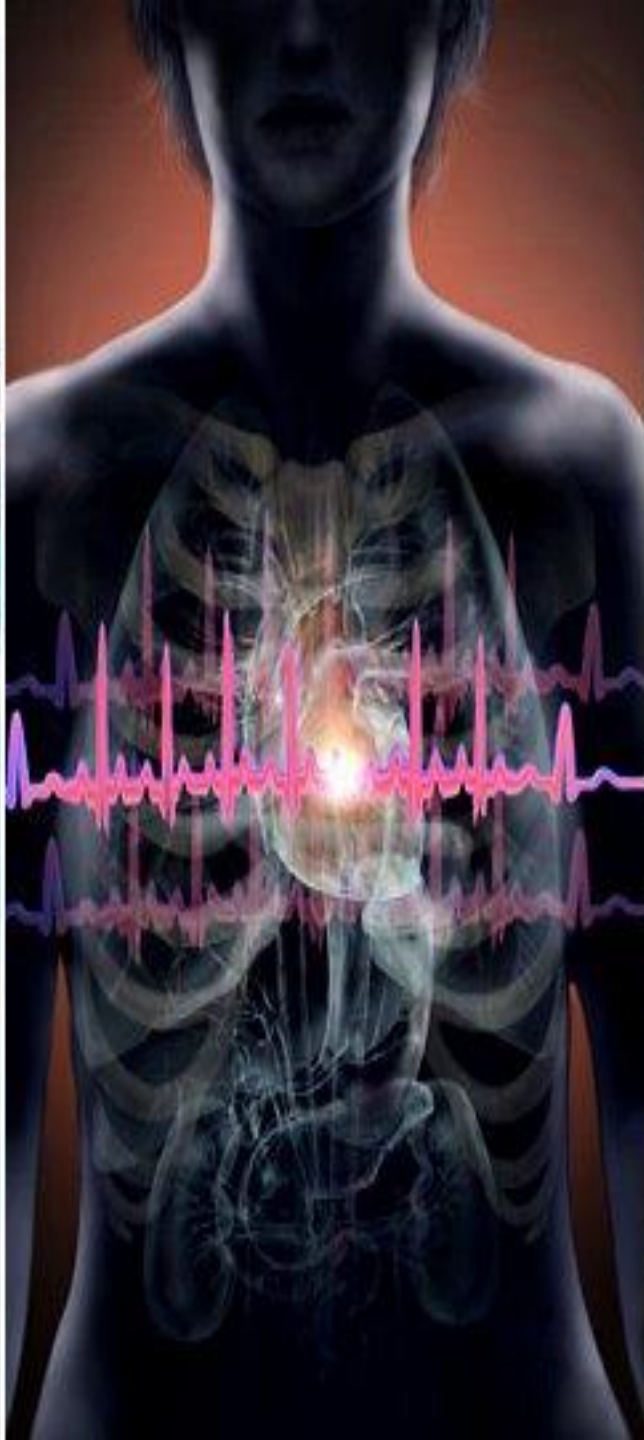

A pair of hands, one larger and one smaller, are shown holding a small, realistic globe of the Earth. The hands are positioned as if they are gently cradling the globe. The background is dark, making the hands and the globe stand out. The globe shows continents and oceans in detail.

We do not inherit the earth from our ancestors,
we borrow it from our children.

Native American Proverb

A tall, dark industrial smokestack is silhouetted against a vibrant sunset sky. A thick, billowing plume of smoke or steam rises from the top of the stack, catching the golden light of the setting sun. The sky transitions from a clear blue at the top to a bright, hazy yellow near the horizon. The overall scene conveys a sense of industrial activity and environmental impact.
