	yes	no	don't know
connect to a computer			
connect to Internet			
send e-mails			
make phone calls			
locate your position with GPS			
play games			
listen to the radio			
watch TV			
play movies			
help with the shopping			

Off-duty: gadgets

Task 1 Label the pictures. Use these words.

short wave radio mobile phone laptop (portable computer) GPS receiver digital camera PDA

Task 2 Work in pairs. Ask and answer the questions.

- 1 Do you have any of these gadgets?
- 2 What brand / model did you buy?
- 3 Where did you buy it?
- 4 When did you buy it?
- 5 How much did it cost?
- 6 Why did you choose this model?
- 7 What can it do?

Military technology then and now

Task 1 Match the units of measurement.

1 foot 0.3048 metres

1 inch equals 1,852 metres per hour

1 knot 1.609 kilometres

1 mile 2.54 centimetres

uranınıar

coula / coula not (coulan't)

Task 3 Study the examples.

The ME 262 could fly at 870 km / h but it couldn't fly at the speed of sound. We use could / could not (couldn't) to talk about ability in the past.

WORLD ENGLISH

Be careful about the spelling of measurements.

UK US
centimetre centimeter
metre meter
kilometre kilometer
litre liter

subject + could / couldn't + verb

Now complete the sentences with can / can't or could / couldn't.

- 1 Submarines can travel underwater.
- 2 In 1901 submarines only dive to 100 feet.
- 3 In 1914 planes fly at the speed of sound.
- 4 The Seawolf class of submarines travel at 35 knots.
- 5 Currently, planes travel at Mach 4.

Writing

Task 4 Write about military technology in World War 2 and today.

In World War 2 we couldn't see the enemy at night. Now we can see the enemy with night vision devices.

HOME TASK:

Task 4 Write about military technology in World War 2 and today.

In World War 2 we couldn't see the enemy at night. Now we can see the enemy with night vision devices.

Gadgets
