The disposal of rubbish has been a social and environmental problem for thousands of years.

When I hear the word “rubbish” I imagine: packaged and wrapped goods in plastic disposable products, old things, old clothes and old furniture.

Not all the wastes are biodegradable; some of them need to be recycled. That's why we have to sort them.

Some sorting containers appear in our city, too.

Unfortunately, people of our town don't understand that all depend on us.

What do people do with rubbish?

There are two ways of the disposal of rubbish.

Let's compare the experience of different countries.

№1 – recycling

№2 – burning

№3 – put in landfill sites

We made a research between the students of our technical school

c's – are really green!

Our suggestions:

- put bins on every street corner*
- use bicycles*
- create more parks*
- try not to buy pre-repacked food*
- don't use aerosols, they pollute the air*

The rule of 3 Rs:
REDUCE! REUSE! RECYCLE!

It is never too late to mend.

Никогда не поздно исправиться.
