А.С. Макаренко

Our school is a four-storeyed building.
It is large with a sport ground behind it.

On the ground floor there is a library, a dining –room, workshops, cloak-rooms

Our library is nice and clean. Our librarian is Zinaida Vasil'evna. She helps us to find books.

This is our teacher of domestic science. Her name is Galina Nikolaevna. She teaches us how to cook, sew and design clothes.

There are gyms on the first floor

There are many light , large classrooms with good equipment.

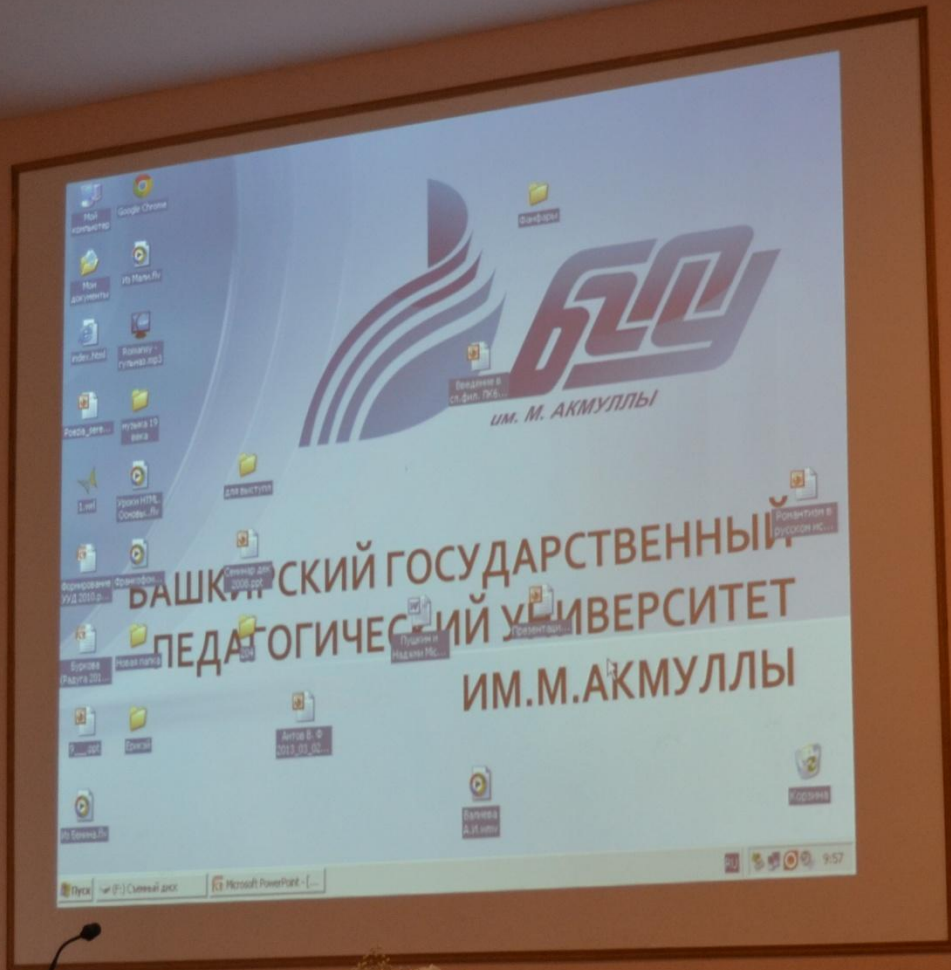

On the third floor classrooms for the primary school. It is very noisy there during the breaks.

Summing up we can say that we like our school, our teachers and we are so thankful to our teachers for what they do for us.

And this is our group. We are funny, sociable, creative.
