

Youth problems.

An actual problem.

Today it is fashionable to speak about teenage problems and interests. There are so many attractions around the teenager and he can choose his own way to live. Young people are usually self-confident, sometimes rude/ They, of course, want to grow up as soon as possible.

Fathers and sons:

A large part of teenagers' problems is connected with their parents. Parents usually try to teach them how to live, interfere in their private life, don't admit their friends. They forget that the teenager already have his individuality and his own opinion.

White crows

- *The other big problem is being different from the crowd. Teenager feels very terribly when everybody picks him on and tries to show him all his disdain. In such situations young people extremely need a good friend who can calm and encourage them.*

Miserable love.

Each person of age 14-18 needs to love and to be loved. But not all can gain their happiness. Teenagers are extremely sensitive, so if somebody hears something rude from their “dreamboat” they can really commit suicide!

Aggressive groups.

Those who choose another way are in the state of a conflict because they can't control their emotions. Such "hot" boys and girls often organize groups against others & conflicts become more serious. They dictate their own rules to everybody. For example, fascist, or "skin-head" movement which is very spread among the young people.

Harmful habits.

- *Unfortunately, there are so many reasons why teenagers take up smoking, drinking or taking drugs. Some of them want to be like their elder friends, some try to prove that they aren't kids anymore, some want to distract from their everyday problems and escape from the reality. So, no matter what attracted the teenager, he needs protecting and supporting*

Childish criminality.

As a rule, young people usually steal. Then they sale stolen things and get some money. Drugs are very expensive so teenager even can be a killer to earn money.

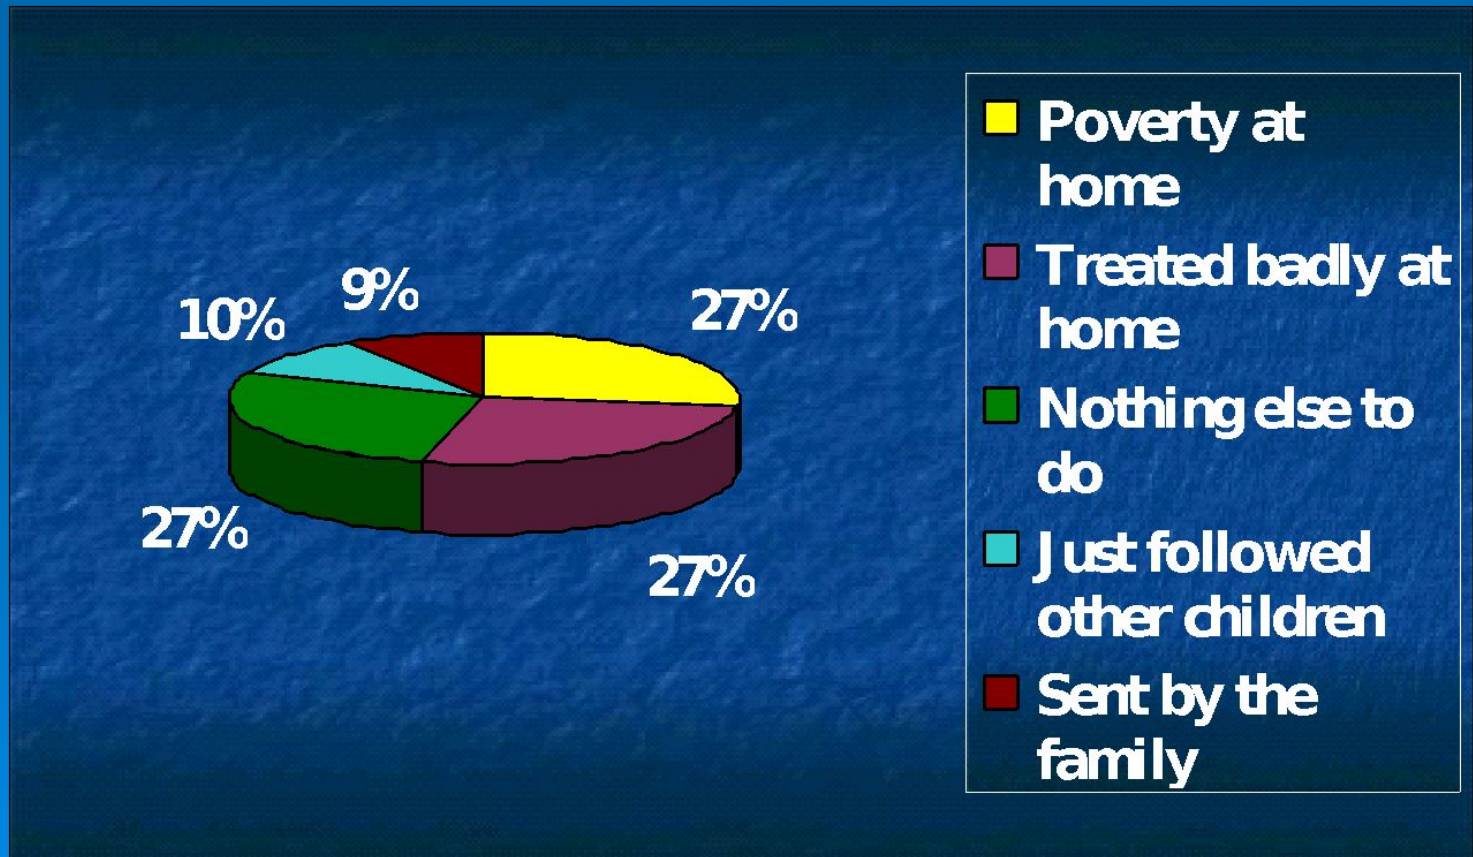

Furthermore, some teenagers rob, beat and slay people for fun! In one American school a teenager shot down his classmates because it seemed to him like a real computer game!

Street children.

- *40 million children around the world spend their life on city streets.*

To sum up.

Nowadays nobody can envy young people due to their numerous problems. But despite that, their life is really great! They communicate, make friends, love, hate, fight... Their existence is very bright and full of colors, and the problems... the problems are solvable!
