ОПОРНЫЕ СХЕМЫ ГРИГОРИЯ НИКИШИНА

«... По идее, опорная схема должна быть на каждую тему урока, согласно существующей программе ОБЖ. Разумеется, она не подменяет собой содержания урока, но, являясь как бы выжимкой содержания, несет в себе основную идею темы, информирует о ее главных моментах.»

Memory

Друзья уходят вдруг. Их так
осталось мало.

Рассудку вопреки и не
понять умом.

У сердца тоже срок. И вот
оно устало.

Прибавился погост еще
одним холмом.

Бессмертна только жизнь.
Не верьте разным слухам.

Ведь завтра – новый день.
И свет прогонит тьму.

Спокойно спи, мой друг,
земля пусть будет пухом.

Ты слышишь, я шепчу:
«Мир праху твоему».
