

It is very difficult to think the Salgir is stretched from the area of Kirov street to Kuibyshev square.

The Salgir has been a reliable water barrier for Scythian Naples. In 1777, on its left Bank stood the camp of Suvorov.

In July 1847, there were hard rain, the river came out of banks, killing people and collapsing houses.

Now it is also rapid and turbulent river

Nowadays it is a picturesque place for people to rest and fun

Thank you for your attention
