Holidays of April.

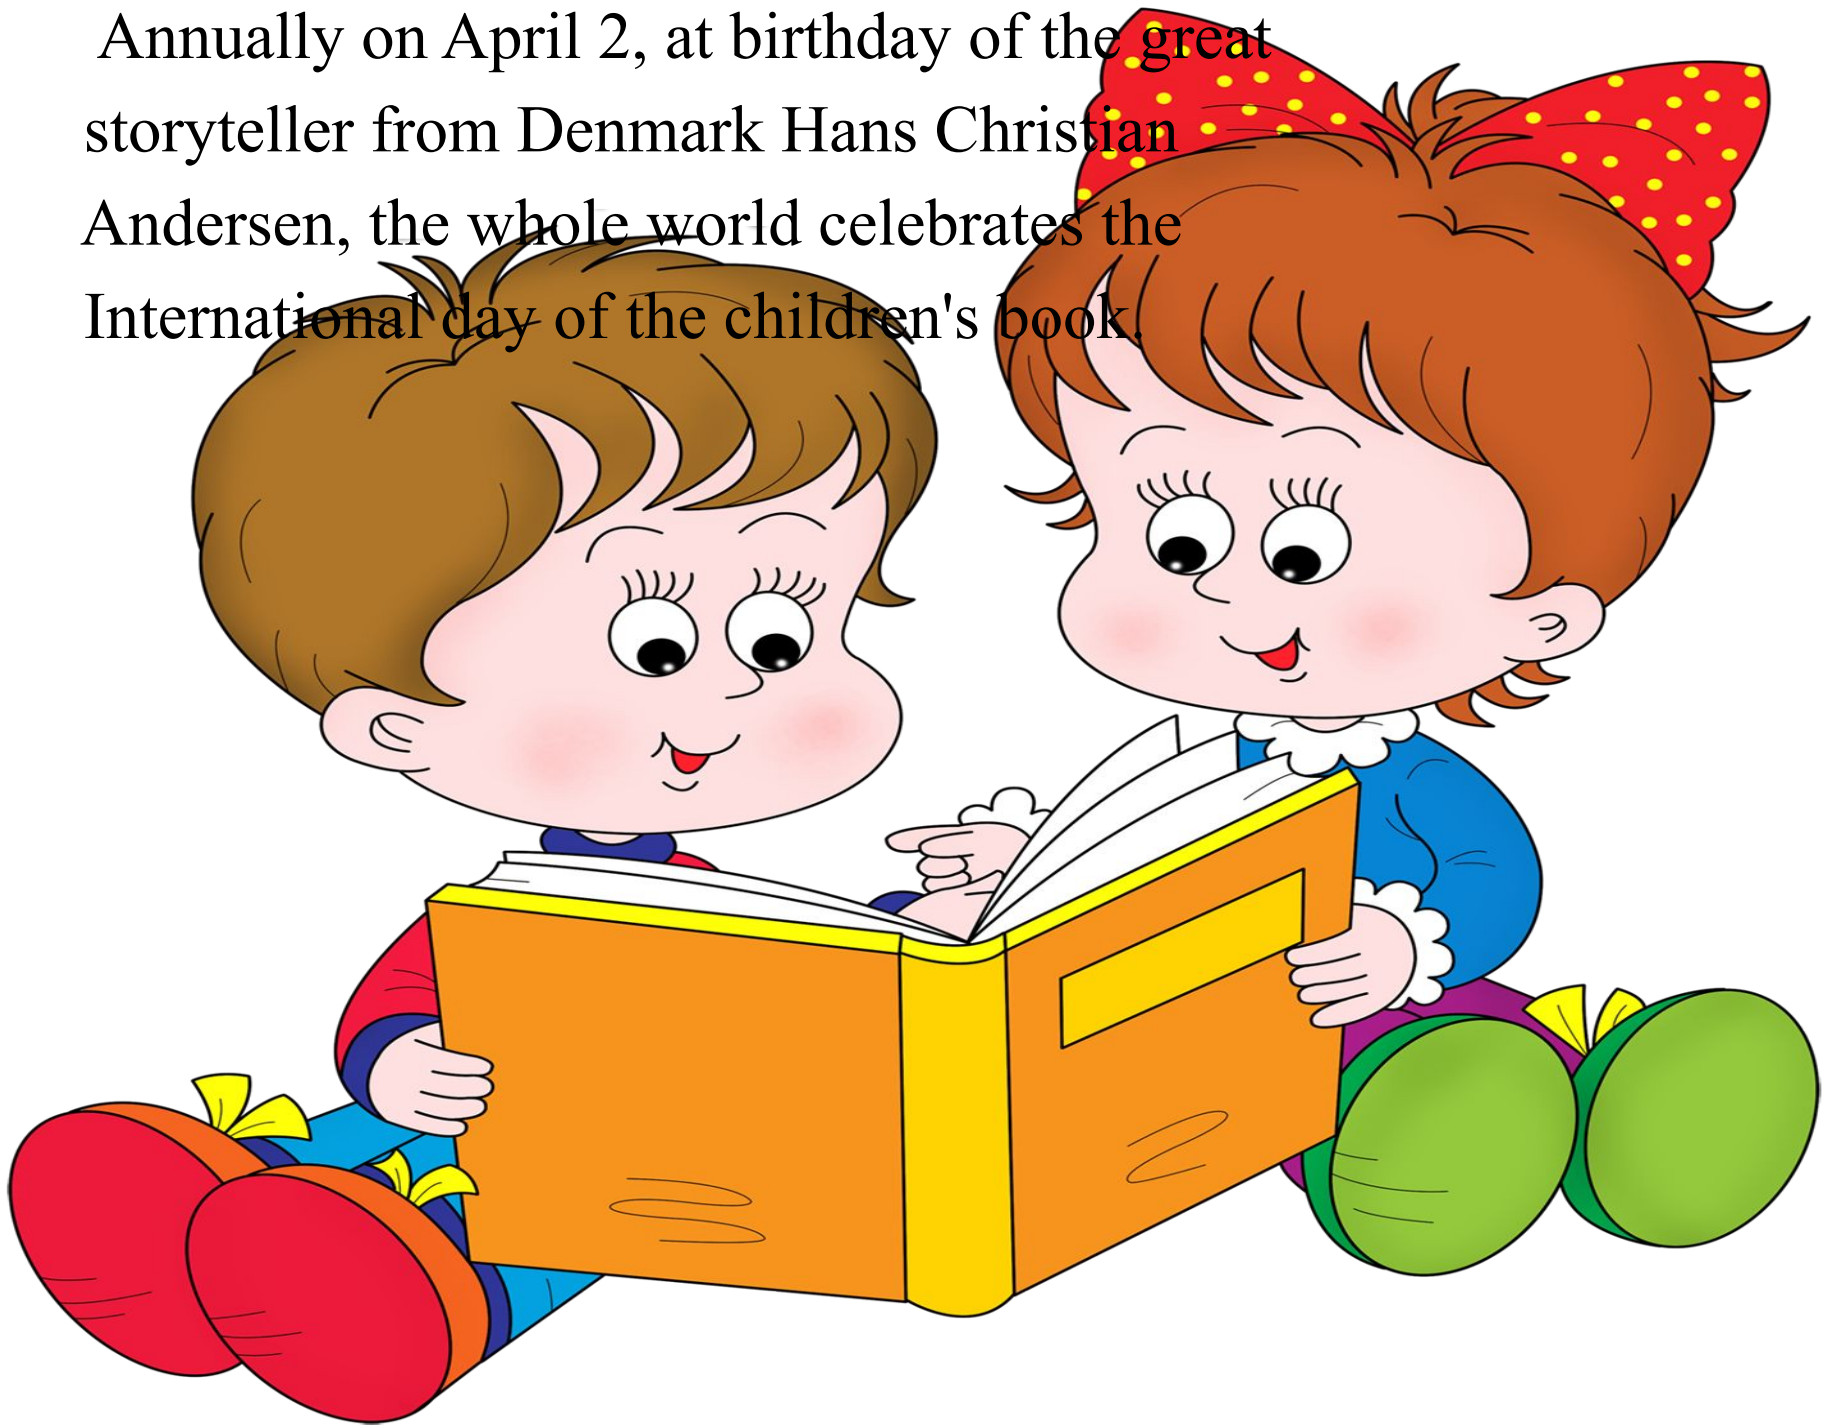

The April Fools' Day is the international holiday celebrated around the world on April 1. On this day it is accepted to play tricks on native, friends and simply familiar people.

On April 12 the whole world celebrates Day of Aircraft and Astronautics - the memorial devoted to the first flight of the person in space.

Annually on April 2, at birthday of the great storyteller from Denmark Hans Christian Andersen, the whole world celebrates the International day of the children's book.

Holidays in England:

Is it interesting to know that Queen Elizabeth the Second's birthday has been celebrating for more than 50 years twice a year? For many years day of her birth is celebrated by all the United Kingdom not only on April 21, but also on the 3rd Saturday of June.

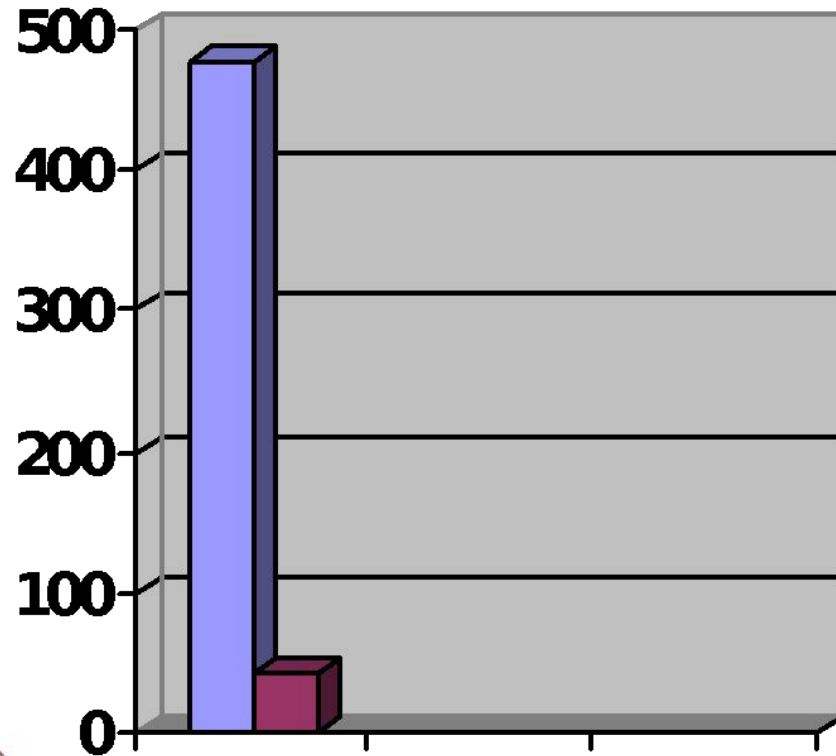

Conclusion.

Having done the research work, I learned that in a month of my birth - April, a set of holidays are celebrated and many famous people were born.

Who knows, perhaps, sometime and I will be included into their number.

A bouquet of several large, pink peony flowers is arranged in a light blue ceramic pitcher. The pitcher sits on a white rectangular tray with a handle. The background is softly blurred, showing a white surface and a light-colored wall. The overall scene is bright and clean.
