

OUR PLANET IS IN DANGER

Project by
Semenova Maria.

Park is the place of our rest.

Pure air, not cut down trees is all that necessary for a happy life.

Don't throw garbage into rivers -it damages the nature

Try to protect the nature as we do.

Rivers pollution

Will you drink spoiled water?

The lotus is the indicator of pure water.

Put your garbage in a bin.

In this picture pupils of our school clean the flow of river Yukshumka.
