The image shows a browser window with three distinct content blocks. Each block has a title in a colored rounded rectangle and a corresponding text box below it. The first block is grey, the second is light blue, and the third is light orange. The browser's address bar and navigation buttons are visible at the top.

Queenstown, New Zealand

August is the middle of the skiing season, so it's snowy and cold. The skies are usually sunny and bright but dress warmly, especially on frosty mornings. And drive carefully if it's foggy!

Tokyo, Japan

August is very hot and humid so you will sweat! Take lots of light clothing. The skies are generally sunny and clear so you'll have no trouble enjoying Tokyo's many sights.

Vancouver, Canada

Temperatures are usually 15 to 23°C and it's sometimes rainy. It can be a little breezy near the sea, and cool in the North Shore mountains in the evening. If you're hiking, take a sweater or light jacket.
