*Spotlight 7 класс текст
« ACID RAIN »*

HAVE YOU EVER HEARD THESE WORDS?

WHAT ARE THEY ABOUT? WHY ARE THEY IN 2 DIFFERENT COLUMNS?

- A power station\factory
- Toxic fumes
- Factory waste
- Polluted clouds
- Air \ water and soil pollution
- Acid rain
- Loss of natural habitats
- Fish and plant species dying

WHAT CAN YOU FIND ON THIS PICTURES?

*LOOK AT THE PICTURES AGAIN AND THE HEADINGS IN THE TEXT
ON P.77. CAN YOU EXPLAIN THE PROBLEM?*

□ Acid Rain

- *The problem*
- *Air pollution and acid rain*
- *Water and soil pollution*
- *Good news*

LETS MAKE THE KWL - TABLE

I Know	I Want to Know	I learned
water pollution Air pollution Land pollution	Causes Toxic fumes Burn petrol	Solution New technologies Solar power

READ THE TEXT ACID RAIN AND COMPLETE 5 W QUESTIONS.

Acid Rain

1 The problem

The problem starts here. Cars **burn** petrol, factories and power stations burn coal and **emit** toxic fumes. So, the air that we breathe becomes polluted.

2 Air pollution & acid rain

This pollution is **gathered** in clouds and with the **oxygen** and water in the **atmosphere** it becomes acid. The winds carry the polluted clouds across long distances, far 1) When it rains, this pollution **lands** on trees, houses, buildings, cars, clothes, everywhere!!! This is called acid rain, 2) there is actually 'acid fog', 'snow' and '**sleet**' in the same way!

3 Water and soil pollution

When acid rain falls into lakes, streams, rivers and seas,

they become toxic. This is water pollution and it harms, kills or **wipes out** fish and plant species. When acid rain flows through the soil, it **poisons** trees and plants. Acid rain 3) causes serious damage to important buildings and objects

4 Good news

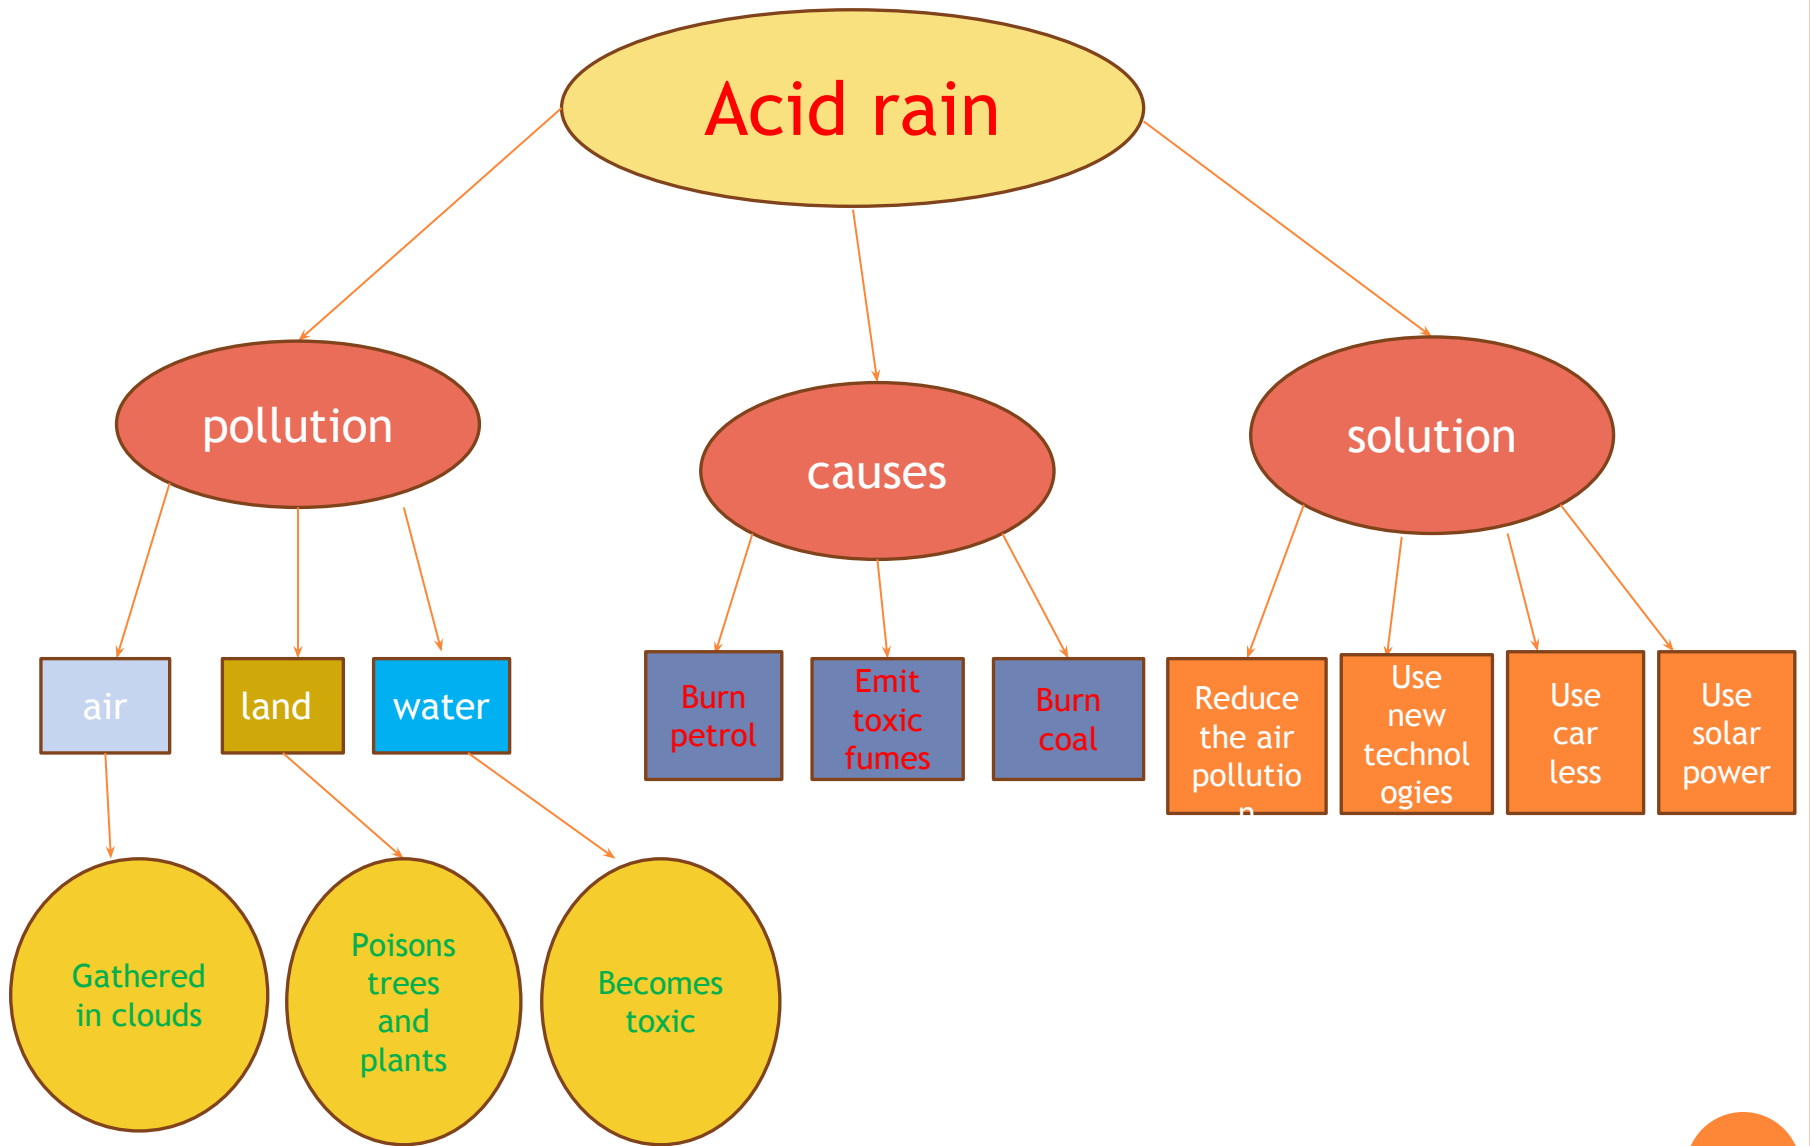

The good news is that governments have been trying to **reduce** the air pollution that causes acid rain. 4) industries have been using new technologies for some time to help make factory smoke less **harmful** to the environment. But we need to do more! We can help reduce the amount of acid rain by using 5) cars less or by using **solar power** to **heat** our homes.

5W

- **What** is the Acid Rain?
- **Where** air pollution is gathered?
- **Why** do we have such a problem?
 - **Who** can prevent air and water pollution?
- **What** can we do to save our planet?

IMAGINE YOU ARE AN ECO-HELPER AND YOU WANT TO INVOLVE MORE PEOPLE IN YOUR ORGANIZATION. MAKE UP A REPORT “WHY ACID RAIN IS SO DANGEROUS FOR OUR PLANET AND HOW WE CAN SAVE OUR PLANET”.

□ RAFT:

- R- role- eco-helper
- A- audience- people
- F- form- report
- T - topic- Acid rain
