LIFE AND SOUL OF THE PARTY

ALFREDO

- People call me a life and soul of the party cause I am very easy-going and sociable person. I feel the moments when to tell a joke and when to make a compliment.

ANTONIA

- My sister is a very reserved person. She doesn't like big companies of people. She is a real **lone wolf**. She is difficult to deal with. But when she comes somewhere to entertain she is usually **a wall flower** because no one wants to dance with her. I don't know what I can do to help her.

ANNA

- I am a funny person and I have many friends everywhere. You may ask me how I succeed to get such a great number of friends. I can say the only thing. Just be a **good mixer** as I do. And you will see the same result.

ANGELINA JOLEE

Angelina is really one of the greatest actresses of all time. She is not only full of energy and the light that attracts you. But we can say that she is a woman of strong will power. She is just a real **femme fatale**. Men all over the world fancy her.

PHILLIP

- I never pay fare when I go somewhere by bus. I have already been fined several times but at the same time the sum of money that I have already saved being a **gate-crasher** is enormous. I will be a fare dodger despite the danger.

SUSANNA

- My friend Susanna is a real **gossip**. I hate this feature of character in people. But I really like Sue. She is my confidant. I try to influence her in a better way. Moreover, sometimes she is a real **wet blanket**. I am a chatterbox and Sue is a good person to talk to.
