

# Project

The way I'd like  
to improve the  
system of  
education.

*I think the system of education in schools should be improved! A lot of new units should be opened, so that every teenager will be taken in his favorite occupation!*

*One of the features of development of education is to equip schools with modern facilities : Where is the main source of information is the Internet. I believe it will allow students to acquire knowledges and gain access to the latest information more fully and rapidly. Using the "World Wide Web" is not only useful for children but for teachers as*

*It is also worth to pay attention to the appearance of school's buildings and their interior decoration. Carrying out repairs allows to create the most favorable conditions for work, holding lessons. In my school students have more time to be engaged in these very subjects that they really need in the future.*

RUS-CHAT.de

*Journeys and tours  
are very  
informative and  
exciting.*

*Therefore, all  
students need to  
go sightseeing  
with their  
classmates and  
have fun while  
learning a lot of  
new things as  
much as possible*

.

*The most difficult and important issues in every school are exams. I think they have to simplify the system, and students will not worry so much. I think that school's education needs to be changed that will undoubtedly improve children's knowledge and will facilitate their work to get the best success.*

class	school		age
	pre - school education	nursery school	1
		kindergarten	2
year 1	junior school		3
year 2			4
year 3			5
year 4			6
year 5	primary school		7
year 6			8
year 7			9
year 8			10
year 9			11
year 10			12
year 11	secondary school		13
			14
			15
			16
			17

*The end*
