COLLEGE AND UNIVERSITY

Post-secondary education in the United States is known as college or university and commonly consists of four years of study at an institution of higher learning. There are 4,352 colleges, universities, and junior colleges in the country. In 2008, 36% of enrolled students graduated from college in four years. 57% completed their undergraduate requirements in six years, at the same college they first enrolled in. The U.S. ranks 10th among industrial countries for percentage of adults with college degrees.
