

MONSTER

N

Nessie truth or myth?

The first hypothesis:
Monster
Nessie exists
because it is
spoken of in
the annals, it
will make the
video.

Many people have seen Nessie,
pictures are taken, videos are made.

Nessie does not exist, because no one can prove at least one of the theories

Proof: The legend of the Loch Ness monster for so many years does not cease to haunt the imagination of fans of the unknown creature. Although the evidence for the existence of Nessie stories are solely unreliable witnesses and fuzzy images, the number of enthusiasts who wish to catch the monster's tail, not decreased.

It is true, as his are looking for, so still not been found. The scientists studied the water of Loch Ness, where, according to legend, lives a legendary monster, using 600 separate sonar and satellite navigation system. The scientists tested the entire lake, but nothing like the monster they have found.

Many hypotheses have been refuted as an optical illusion

A dark grey arrow points to the right from the left edge of the slide. Below it, several thin, light blue lines curve upwards and to the right, resembling stylized grass or reeds.

The **general conclusion**

We can't definitely say that Nessie is or it never happened, everyone thinks its own point of view.
