

**The 22<sup>nd</sup> of April**

**THE EARTH  
DAY**

# Save the Earth!

Автор: Коробкина Е.А.  
учитель английского языка  
РОУОР

# The plan

- Ecological problems:
- The air pollution
- Water pollution
- Endangered species of animals which almost extinct
- Deforestation
- Destruction of natural resources

**WHAT CAN WE DO TO PROTECT OUR NATURE?**

Please, think about it...

# The air pollution

The country air, once clean and fresh, now may be polluted by power stations and factories.

# Acid rain

- The electric company burns coal to produce the energy that keeps your lights on. That burning coal gives off gases that cause the greenhouse effect and acid rain.

# The water pollution

Companies dump chemical wastes into water. We can even see a thick foam caused by chemical waste. Some of our rivers are now empty of fish.

# Never drop litter

We live among  
litter and  
wastes which  
we have  
created  
ourselves.

- Don't Buy Drinks in Plastic Bottles.

- People use 2.5 million plastic every year. These bottles can't be recycled and won't ever degrade.
- Only buy soda and other drinks in aluminum cans or glass bottles. Buy milk or juice in cartons. Then recycle them.

Walk or cycle whenever possible

# Try not to waste energy

- Turn off the lights when you leave the room, and turn off the lights in the room that you really don't need. In the daytime, sit closer to the window to read instead of tuning on a light. Turn off the TV or the stereo when you aren't watching or listening.

# Put out food for wild animals in winter

# Don't cut the trees down

- People cut the trees down. Many species of animals and birds have disappeared. Millions of animals die every year because man has polluted their natural homes.

# Save our wild flowers

- Plants are the basis of our life on the Earth.

# Help to clean up your local environment

- Pick up litter you see as you are walking. Throw away trash. Recycle bottles and cans.

- We should always remember the wise advice of a great English writer John Galsworthy who said: “If you don’t think about the future you will not have it.”
