Being together

Lesson 1. Sakubona ! Many happy returns !

A few details about myself.

- ▶ Hello, my name is Matvei Epifanov but my friends always call me Moty for short. I'm a student of class eight and I study well. I live in a small provincial town. Also I have a hobby. My hobby is shopping. I'm calm and practical and I have a healthy attitude to fashion I don't think a lot about what I look like and I enjoy myself more and the most important that I dress for myself. I don't understand people who think that shopping is a bad hobby but I love my activity. Unfortunately in my town clothes are very expensive and I can't buy a lot of clothes, it's so bad.

Russia. Country and traditions.

- ▶ In Russia birthdays are very important for a teenager, because a teen can meet with friends and have fun.
- ▶ In the morning, members of family congratulate a birthday child.
- ▶ Parents light the candles on the birthday cake. There are as many candles as the age of the birthday child. And everyone sings the birthday songs and the birthday child blows out the candles. If all of the candles are blown out in one try, the wish of the birthday child will come true. Friends and relatives wish the birthday child health, happiness, love. Also friends give money.

My opinion.

- ▶ I think that to give money is a good idea, because usually you can't guess with a gift. And if you give money, teen can buy useful things. Of all my gifts I prefer money the best. Different people like different gifts. I always buy presents in advance so as have enough time to choose. Whatever I choose is exactly what my friends want. I always think about a lo of things when I choose a present. It's not difficult to buy a present for me. I follow some rules. I think about :
 - ▶ My friend's needs.
 - ▶ My friend's age.
 - ▶ The originality of the presents.
 - ▶ The price.
 - ▶ If my friend is a boy or a girl.
