

# STATUE OF THE CHRIST SAVIOR UNDER WATER

Malta, statue of the Christ  
under water at a depth of 40  
m.

- Near Malta's Marine Park, in two kilometers from the coast there is Jesus Christ's well-known underwater Maltese statue.

- ◎ Jesus Christ's well-known underwater Maltese statue was executed by the known Maltese sculptor of Alfred Camilleri Cauchi. Works on design and production of an underwater statue of Jesus Christ were estimated in 1000 of the Maltese liras

- The committee of divers authorized Alfred Camilleri Cauchi for performance of this work in honor of celebration of visit of Malta in 1990 for the first time Pope John Pavel of II. Jesus Christ's statue was made and originally drowned in 1990 on Malta about Sacred Pavel's islands

- The three-meter underwater Maltese giant of Kristu I-Bahhar with the raised head stretches up the hands from thirty eight-meter depths and looks in the direction of St. Paul's islands.

THE STATUE NOT ALWAYS WAS HERE. EARLIER IT WAS AT A SEA DEPTH ABOUT SACRED PAVEL'S ISLANDS BUT BECAUSE THERE ARE SOME OPERATING FISH FARMS, DIVERS BEGAN TO COMPLAIN OF DETERIORATION OF WATER AND POOR VISIBILITY IN THE DEPTH OF THE SEA IN

- In May, 2000 Jesus Christ's lying until then of 10 years at the bottom of the sea underwater statue, Maltese pulled out the floating crane since the weight of a statue of Jesus Christ makes 13 tons and moved closer to earlier old Malta-Gozo ferry ferry flooded with year (the ship the Imperial Eagle which was earlier).
