Цели:

1.Познавательный аспект:

- знакомство с экстремальными видами спорта;

2.Развивающий аспект:

- развитие умения догадываться о значении новых лексических единиц по словообразованию, контексту;
- развитие способности осуществлять продуктивные речевые действия;

3.Учебный аспект:

- формирование лексических навыков говорения;

Сопутствующая задача:

- развитие умения читать с целью извлечения детальной информации;

Contents(Содержание):

- A. Skydiving;
- B. Skiboarding;
- C. Bungee jumping;
- D. Base jumping;
- E. Street luge;
- F. Ice – climbing;
- G. Zorbing;
 - Task 1;
 - Task 2;
 - Task 3;
 - Task 4;
 - Task 5;

A) Skydiving

Skydiving consist of jumping with a parachute, out of an airplane for recreation or in competitions . Competitive events include jumping for stile , landing with accuracy, and making free-fall formations.

Modern skydivers typically free-fall from 3657m above the ground until 762m, where they open their parachutes.

е

B) Skiboarding

Skiboarding is the art of descending a hill on skiboards. Skiboards are basically a cross between skis and a snowboard. They are about half the length of regular skis(between 80 and 100 cm. long) , and about twice as wide. The design allows the rider to do everything that skiers and snowboarders do plus go backwards, turn 360's on the ground , execute one foot turns and perform more tricks than was ever thought possible on normal skis.

е

C) Bungee jumping

Bungee jumping consist of jumping from a great height while attached to a long piece of elastic that is just short enough to prevent the jumper from hitting the ground.

D) Base jumping

Base jumping consists of jumping with a parachute from high places such as buildings or mountains

E) Street luge

Street luge is the pavement version of ice luge. Both involve lying flat on your back and steering a luge not much bigger than a skateboard with your head just inches off the ground . Complete fearlessness is essential for this sport , as well as a thick piece of rubber , preferably from a car tyre , as footwear . Top lugers can reach speeds of 145 kilometres per hour , yet their only way of braking is to use their feet, which often causes painful injuries .

F) Ice-climbing

As the name suggest ,
practioners of this activity
climb glaciers with the aid
of an ice axe and a great
deal of other specialist
equipment. As well as all
the equipment , incredible
physical and mental
strength are essential ,
together with the ability to
work closely with other
team members in the
most .

G) Zorbing

Zorbing is the latest adventure experience from New Zealand. It involves rolling around in a ball, or zorb three metres in diameter. It requires no more skill than a hamster running in its wheel as centrifugal force keeps the zorbonaut pinned inside the zorb. Although zorbonauts have hurtled downhill at speeds 50 kilometres per hour, the air cushioning inside means they do not risk hurting themselves too seriously.

Task 1

Сделайте подписи под фотографиями :

skydiving
