Good points

- It reflects creativity, imagination, self-expression, rebellion against constraining(ограничивающих) forces;
- Is unrestricted and sublime (возвышенный);
- Is diverse and alive from every way you look at it: from paste-ups (приклеивание, монтаж) to murals (фрески);
- They make our lives happier motivating and inspiring us;
- It takes the normal and makes it a thousand times more exciting.

Bad points

- The property does not belong to them, that is why it is illegal and looks as if it is an act of vandalism.
- Some of them carry no significance and look silly, aggressive, unsightly (неприглядный) and have some scrawls (каракули) on them.
