Reading

Firstly, a plane is a safe way of travelling because there are few accidents than with other means of transport.

Furthermore, it is a quick way to travel. You can travel a great distance in a little time. Also, it is relaxing because you can enjoy a meal and a film on most flights.

However, air travel is very expensive because tickets usually cost a lot of money.

In addition, because the seats are very close together, air travel is not comfortable.
