Reduce Reuse Recycle

THREE
GOLDEN "R"

Reduce means save!

REDUCE

Not producing unnecessary waste in the first place—so there's zero impact on the environment.

Why it is needed?

- Every product requires natural resources.
- To avoid landfilling/reduction of methane
- Saves energy
- To reduce pollution
- It costs your pocket (Rs.1500 to Rs.2000 per Tonne)
- An expected 50% increase in the next 10 years

Reduce, Reuse, Recycle.

Every 1000 sheets of paper costs as a **TREE**

So, Consider the impact of using paper in the Environment.
