My favorite book

Author: A.A. Fadeev

Title: «The young
Guards»

Genre: a novel

My favorite book

The novel of A. A. Fadeev «The young Guads» was edited in 1945, in the days of the fight of our folk with fashists occupants.

I think, the modern youth should obligatory read this book, to learn and understand for themselves some things. The novel has great educational force.

My favorite book

From the first pages the author tells the readers about heroic main characters of the book – about young komsomol members. This novel is about young people, who defended their land with the price of their lives from fascists. It is the novel about unhuman suffers which these young people young guardsmen – endured.

The action is set in the first years of the great Patriotic War, when Hitler Germany occupied practically the hole little miner town Krasnodon. The group of young boys and girls – komsomol members – formed a legendary underground organization «The Young Guards». The founders of the group were Victor Tretiyakevich and Sergey Tyulenin. The names of Oleg Koshevoi, Ulyana Gromova, Lyubov Shevtsova are famous too... The life of those young people didn't differ from the life of other young people very much. In their spare time they fell in love, helped their parents, were nice with other members of their families, came together and had a very good time. Of course, they dreamed – about many things, and about a happy future life after the ending of the war. This happy future came. But many of these boys and girls didn't see themselves in this life, because they weren't alive in those days...

Main characters of the book

The main characters of the book are boys and girls, who united for the fight with German fascists. They are Uliyana Gromova, Oleg Koshevoi, Vanya Zemnukhov, Zhora Arutynyants, Sergey Tyulenin, Lyubov Shevtsova and many others. They formed the youth organization «The young Guards».

Heroic deeds of the «young guardsmen»

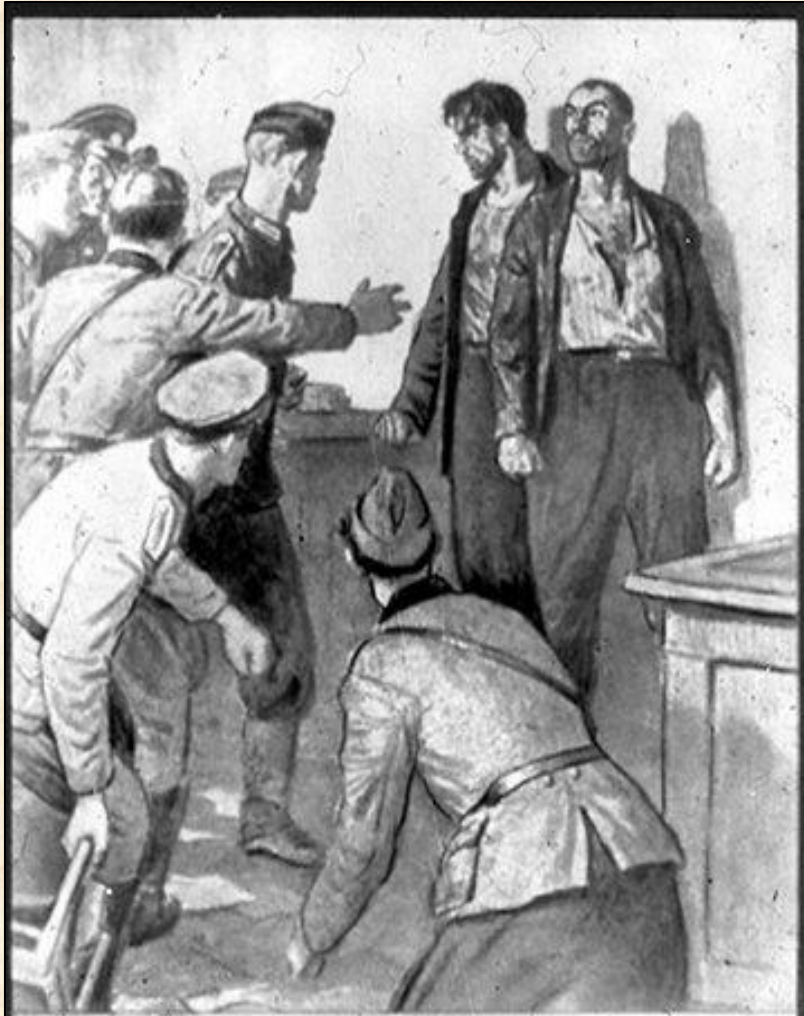

The young guardsmen offered leaflets, freed soviet war prisoners, collected weapons for Russian soldiers. Three fighting groups of «The Young Guards» acted on the ways of the district. One group with Victor Petrov as a head attacked motor cars with German officers, the other group with Zhenya Moshrov as a head destroyed cars cisterns, and Sergey Tyulenin and his group acted everywere.

Heroic deeds of the «young guardsmen»

The arrest of the underground

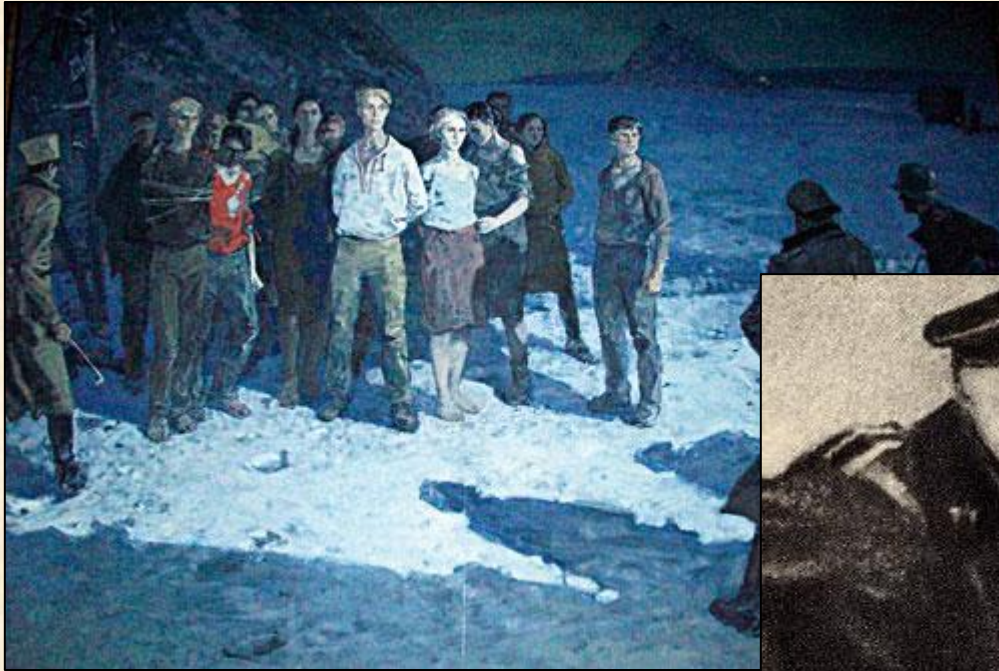

The police arrested the members of the underground organization «The young Guard» after one unsuccessful action 30 December 1942. At first they took Moshkov, Zemnukhov and Stakhanovich. The other boys and girls got an order to hide properly. But when Stakhanovich was tortured, he gave evidence. As a result, the group of adult members of the underground organization with Lyutikov as a head of it and the members of «The Young guard» got into the hands of executers.

The arrest of the underground

Execution of the young guardsmen

All young guardsmen were cruelly beaten and tortured. On the back of Ulya Gromova fascists cutted a star.

But during the cruel tortures all young people didn't say a word. All arrested underground actors were executed and thrown down into the mine.

Why is the book worth reading ?

The novel fascinated me with the fact, that its main characters are young people of the age from 14 to 19 years, who didn't fear to join a cruel fight with fascists, didn't let down their friends during brutal tortures. The plot of the novel is very exciting and fascinating, because Fadeev's young guardsmen were true to their youth by cruel and difficult circumstances. They prepared themselves for the peaceful work – those boys and girls, but the fate prepared for them a trial by the war, and they went through difficulties and showed the whole world how one must love Motherland! This book is a valuable document of our history and a testament for descendants. We have our role models and know, how to build our life.

Favorite episodes

- ❖ Ulyana Gromova made a work against recruiting and driving away of the youth. She wrote and offered leaflet, helped with the work those young people, who could be recruited; sometimes Ulya hid the young people in the farm – steeds.
- ❖ She as many other young guardsmen didn't tell her relatives about her belonging to, «The Young Guards». Her parents lost their strong influence on the girl, and the father was very shy with Ulya and kept silence in her presence.
- ❖ Ulya had very beautiful big black eyes edged with long eyelashes; long , curly, heavy plaits went along to her waist. This beautiful graceful girl owned a strong character and peace of mind. She was honestly, steadfast, he never hid from danger.

Conclusion

The novel «The young Guards» told us about difficult, but heroic events of the war years, about this time we know only from the school text books or the stories, told by old people. We could see those events with our own eyes, could feel all pain, which young people had to feel and try. People of our country remember, respect and love these heroes nowadays too. They show us an example of bravery and courage.
