**«The nation that destroys its soil
destroys itself»**

Franklin. D. Roosevelt

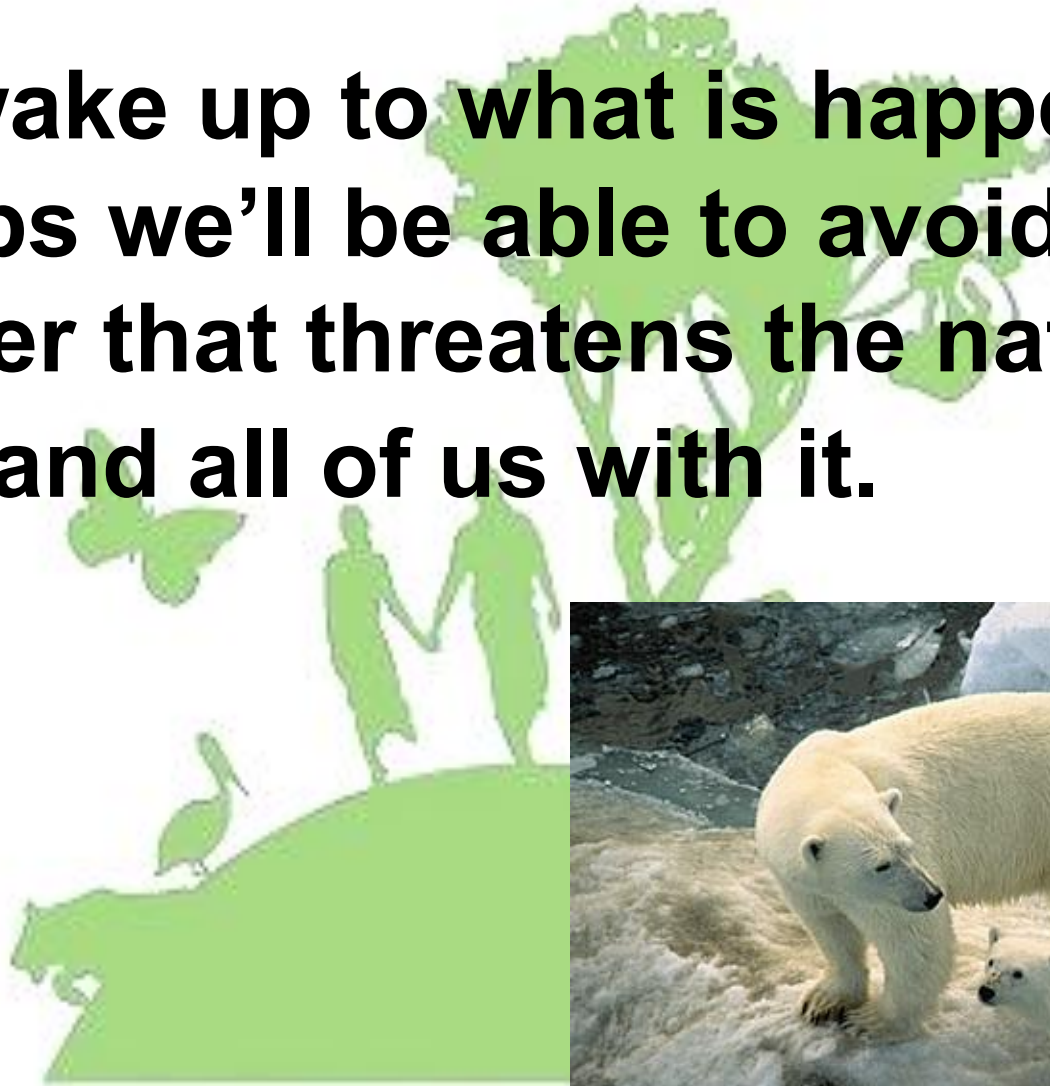

The poisoning of the world's land, air and water is the fastest – spreading disease of civilization. It is one of history's greatest danger to human life on Earth.

If present trends continue for the next several decades, our planet will become uninhabitable.

If we wake up to what is happening – perhaps we'll be able to avoid the disaster that threatens the natural world and all of us with it.

How can we personally help nature?

- We can grow plants and trees
- We can clear rubbish from lakes and rivers
- We can save energy
- We can walk or use

We can join public organizations and unofficial movements to change public opinion on the environmental problems.

We learned about such organization as:

- ❖ Greenpeace
- ❖ «Friends of the Earth»
- ❖ «Pomozhem reke» (Let the River) from Nizhny

ПОМОЖЕМ РЕКЕ

We can join «Green Sail»: It's an ecological association for children and teenagers in Nizhny Novgorod.

Conclusion:

We suppose the solution of the problem requires the cooperation of the people's efforts in nature conservation

We will be able to understand the protection is
