Meet the Tower!

The Tower of London sits on the banks of the River Thames.

The Tower of London has been a fortress, a palace, an arsenal, a mint, a prison, an observatory, a zoo, the home of the Crown Jewels and a tourist attraction.

The Tower is guarded by Yeoman Warders, or 'Beefeaters'.

Eight big, black birds, called ravens live in the Tower. The legend says that if the ravens leave, the Tower and the country will fall.

The Tower has a long and exact history.

But people like spending time here!

*The Tower's greatest treasure is the Imperial State Crown.
There are 2800 diamonds on it.*

It's an amazing place to visit!

There a lot of kinds of bridges across the Thames.

The Tower Bridge was built in 1894.

It opens and ships go up and down the Great River.

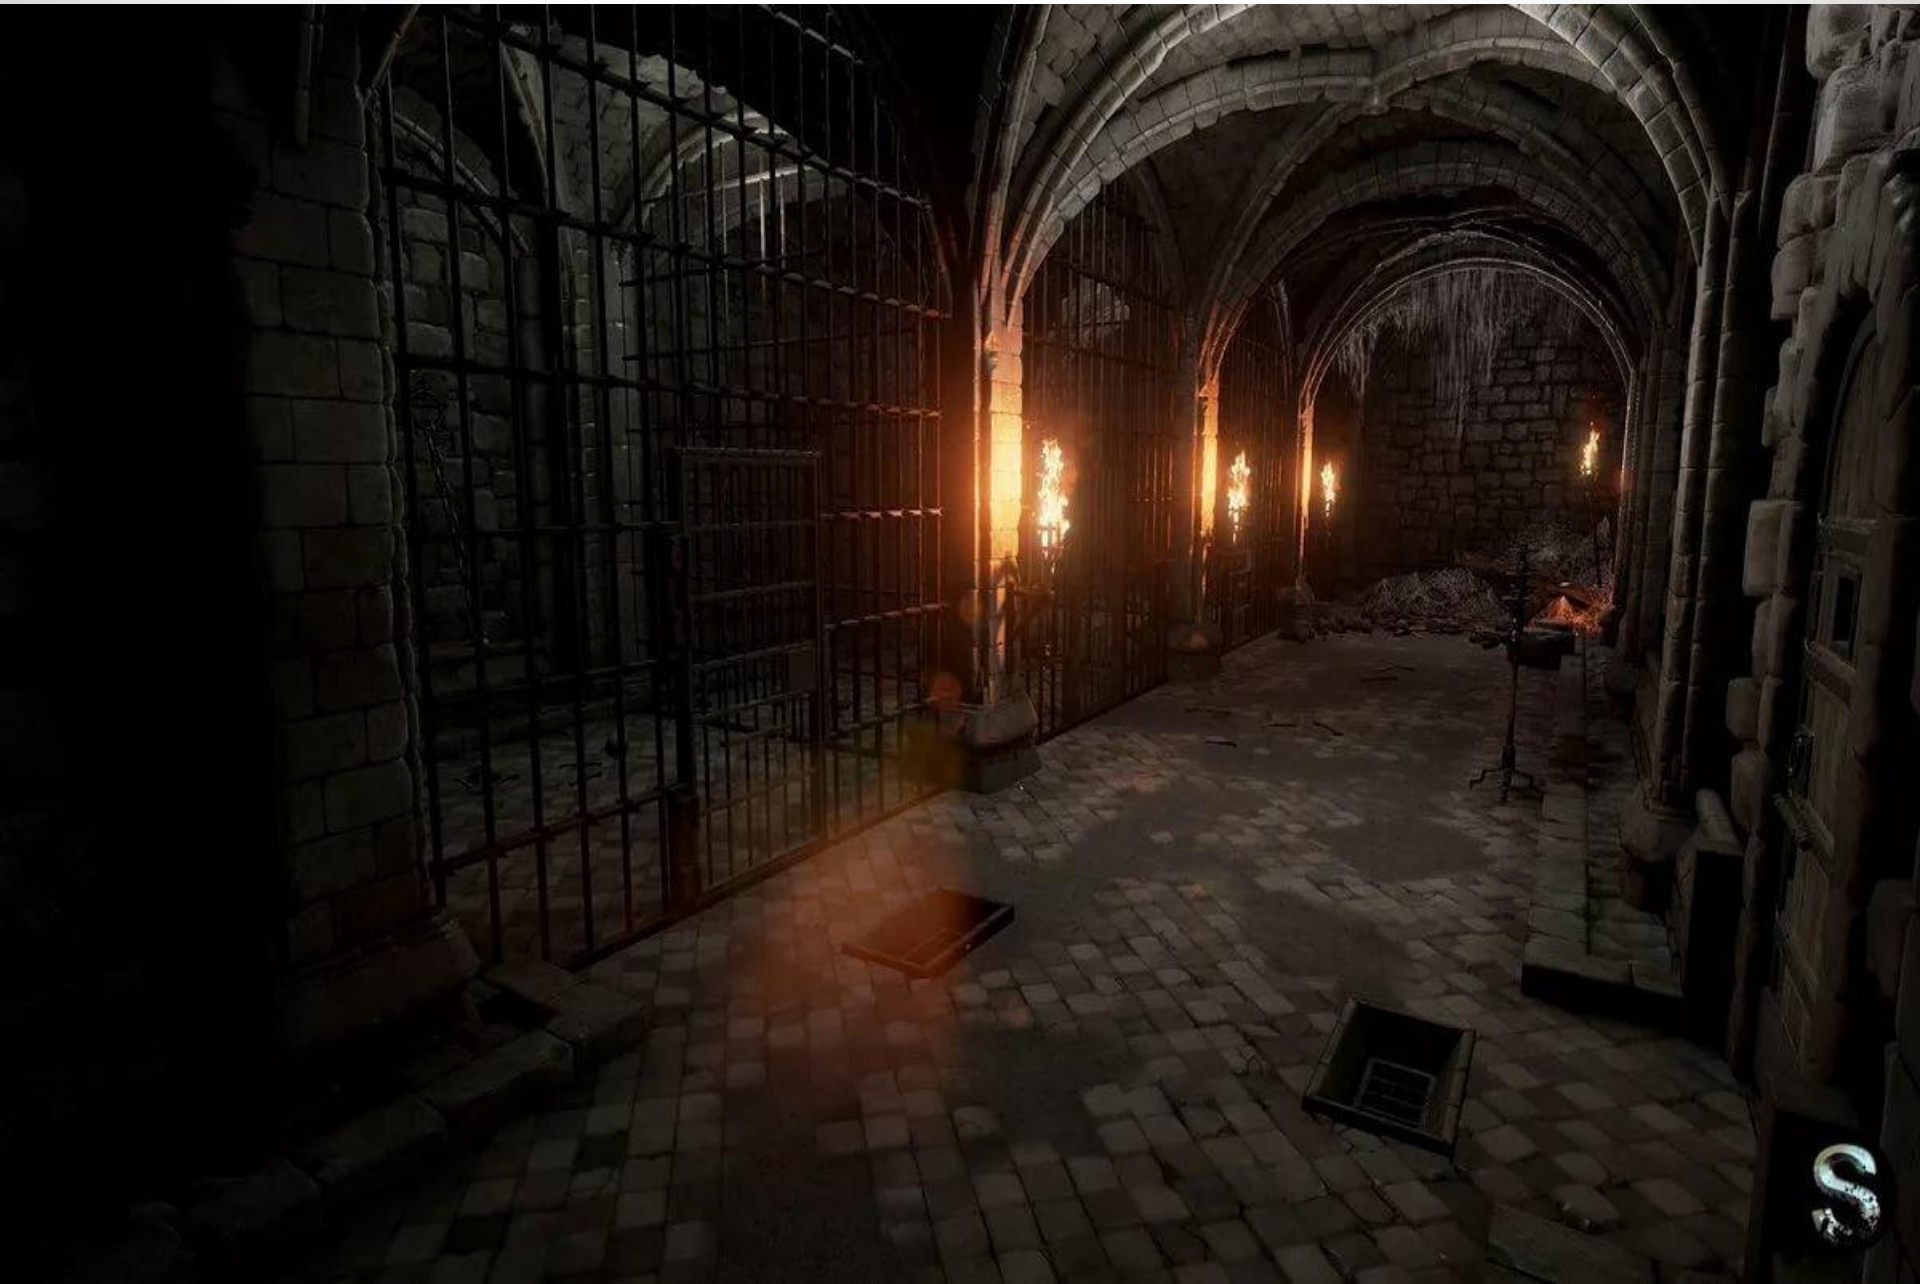

If you like to be scared out of your wits, the London Dungeon is the place for you!

Go deep underground and learn about the Great Fire of London, Jack Ripper and the Great Plague.

There many dark corridors in this place.

You can also try to get out a scary labyrinth of mirrors.

The London Aquarium is the biggest in Europe.

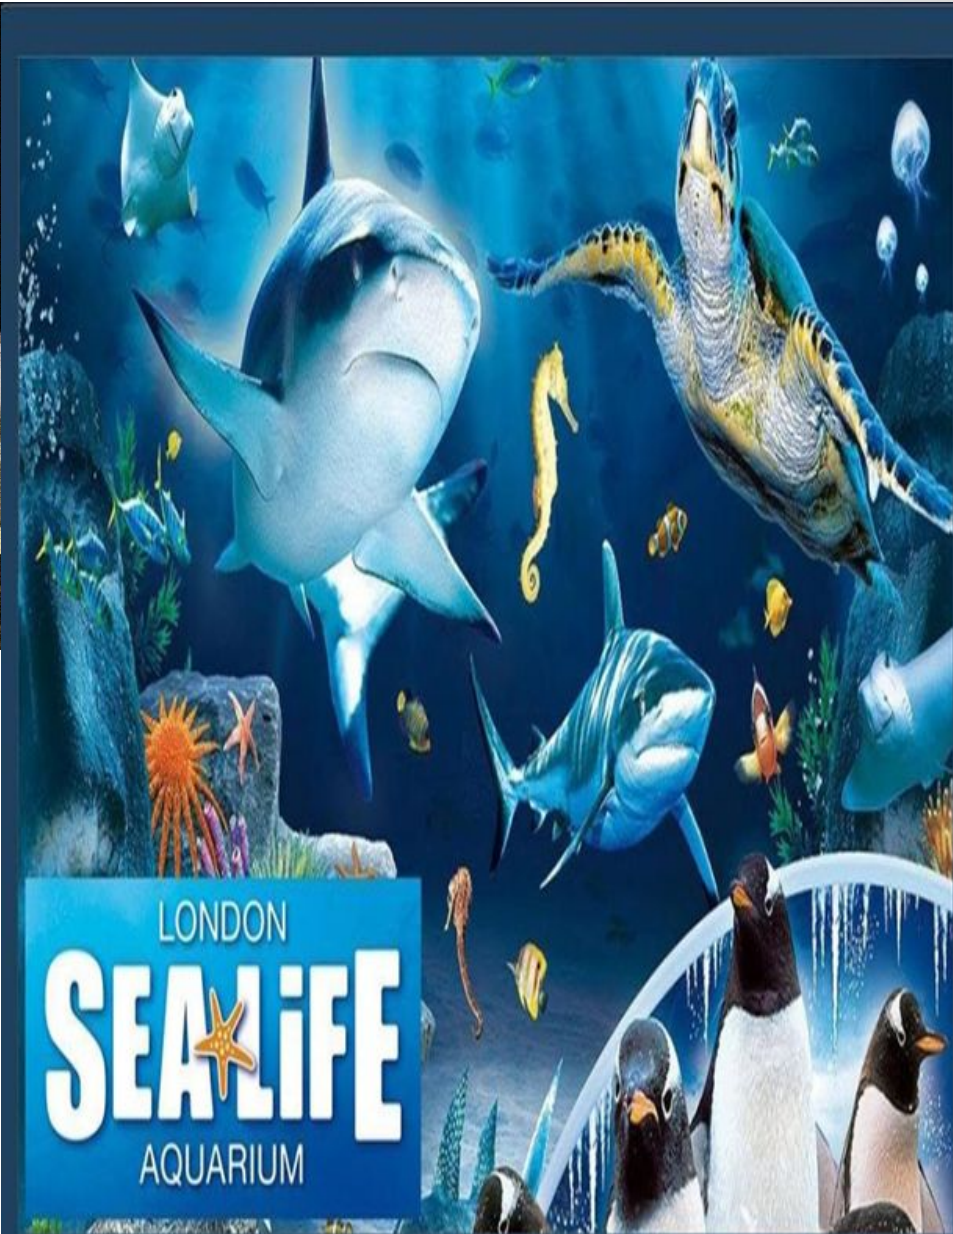

Don't miss this exiting place!
