Prudnik Irina Venadevna
school № 11**

**Roshchino
2016**

We live in Roshchino.
Our village is not big but
nice and modern

It is situated far from Moscow in the Far East of Russia between Khabarovsk and Vladivostok.

Our village is famous for its
beautiful nature.

There is a forest and a river Bolshaia
Yssurka. One bridge is over the river.

The streets are not very wide,
but they are green.

In spring and summer there're
a lot of flowers near the houses.

There is a village club, a school, a bank, a post-office and a hospital in the center.

We have two supermarkets, three cafes and many shops in my place where I live.

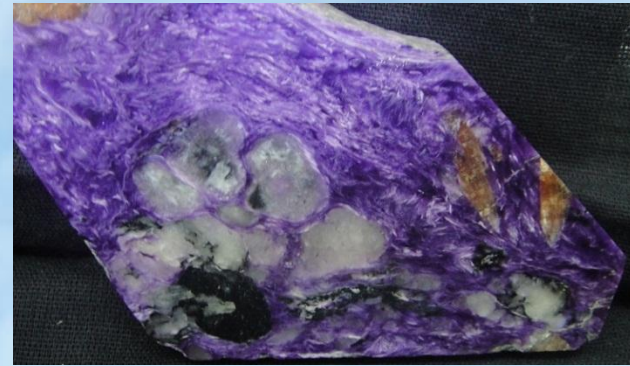

Next to the club you can see a monument of died soldiers in the Great Patriotic War.

We've got a famous museum of minerals in Roshchino.

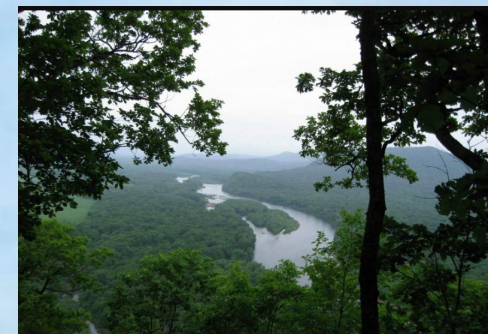

You can see
very interesting
collections
of stones there.

In fact, we love our village.
We think Roshchino is very
beautiful and we're proud of it.

**East or west
Roshchino
is best!**
