

Migration

From the past to the future

In a few words

Migration - is the movement of people from one place to another.

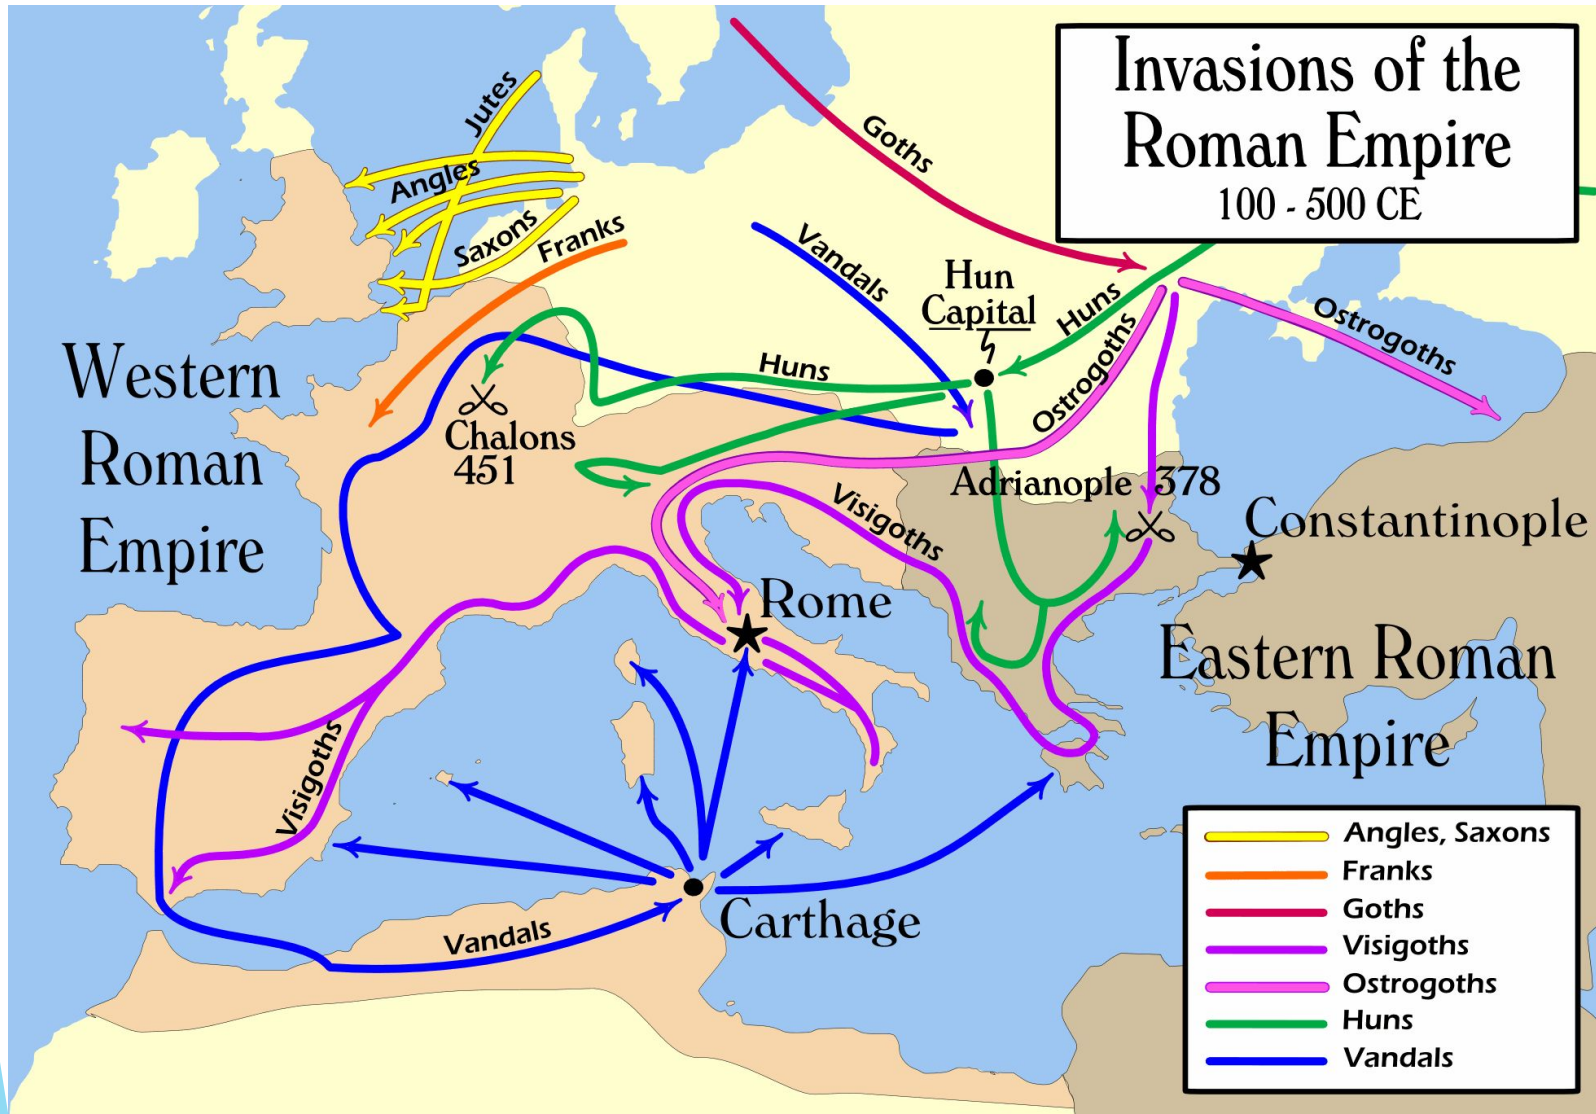

Migration in the past

- ▶ The first human migration was about 200,000 years ago

► «The Migration Period occurred» in the first millennium AD

- ▶ From the 17th century to the present day the U.S. is the main country of immigrants.

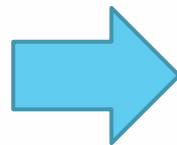

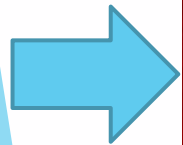

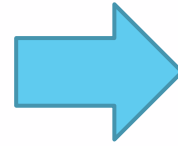

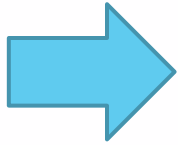

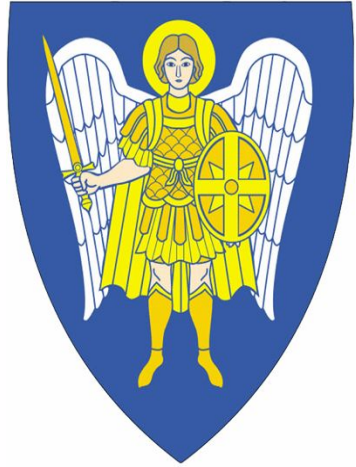

The European Migrant Crisis.

- ▶ The main problem in Europe today

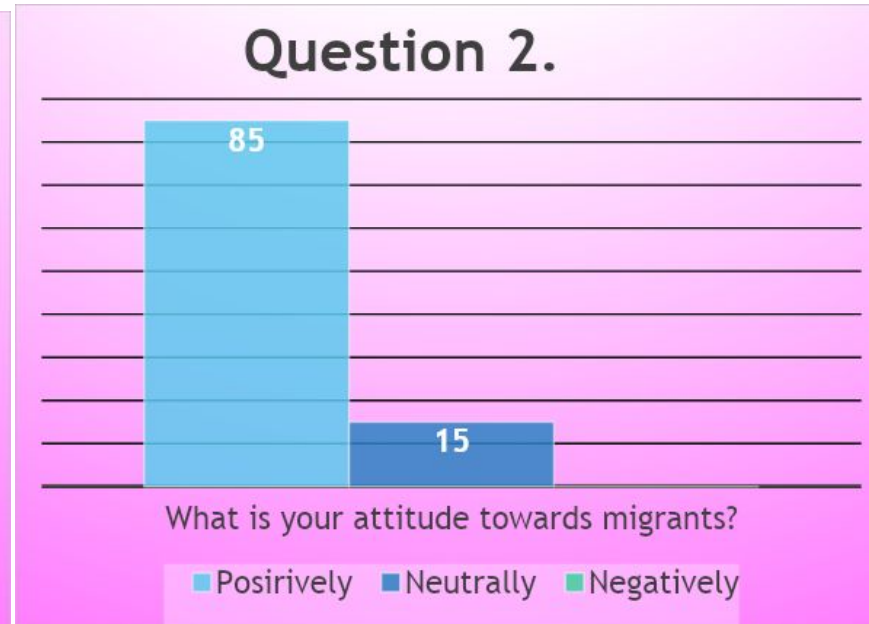

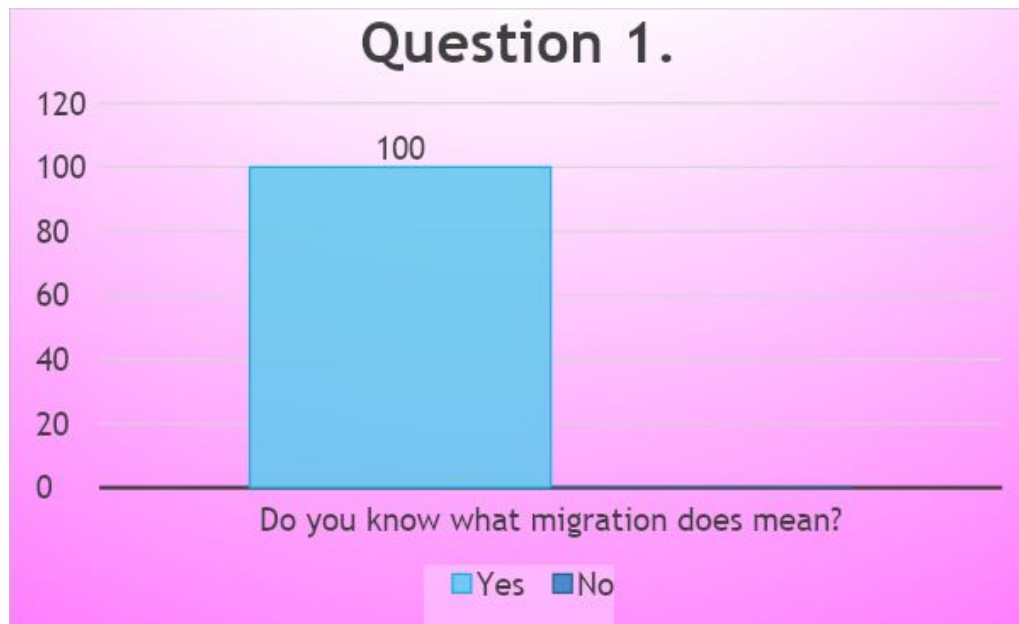

Migration in Russia.

- ▶ Migration in our country has been always existing. From «The Migration Period» to Russian Federation through Ancient Rus, Empire and Soviet Union.

Pupil's attitude towards migrants

- ▶ The results of the survey among our high school students.

Consequences of migration:

- ▶ eliminating a problem of unemployment;
- ▶ creating new jobs;
- ▶ developing the infrastructure;
- ▶ solution of the demographic problem.

Consequences of migration:

- ▶ The outflow of capital in the migrants' home countries;
- ▶ Ethnic and religious conflicts;
- ▶ Increasing competition with local people;
- ▶ Reducing of Europeans' salaries.

What can we do?

Migration today is a very **serious and huge** problem both for the European Union and for the whole world.

In what ways can we help Europe and our own country?
