I would like to change something in my school

The school of my dream is a big, beautiful school with wide and light corridors.

There are new modern chairs and desks.

Students have got their own computers on their desks.

There is a sport centre with good swimming pool

There is a big green park
around the school.

There students spend a lot of time together. They help each other. The school life is very interesting. Students often go for walks, on excursions, to museums, cinema and theatres.

**The school library is very rich
in new interesting books.**

There is a nice and tasty food. I think students need more salads, fruits and vegetables.

The next step is holidays

Summer holidays are long enough but I would make autumn, winter and spring holidays longer to let pupils to spend more time in different activities or to travel

School uniform is an inseparable part of school life in many countries

when children wear a school uniform, they understand that they are at school. It adjusts them to school atmosphere and helps to study harder.

The disadvantages of school uniform include the lost of individuality. Everyone becomes alike and children look similar.
